answers to your questions about faxing

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Tax — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

→ Faxhyg.net

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Kaspersky NetAgent Install with SCCM

Options

PaulSanders87

Posted: [illegible]

Morning All

I am trying to deploy the Kaspersky Net Agent client using SCCM as part of an Operating System Deployment. Whenever I try to run this step the timeout passes as the app isnt an doesn't report its status.

I am have configured the following

Program: setup.exe /s
Run with Admin Rights
Map Network Drive

The setup runs, but doesn't seem to install

When I map a drive and run the same command, it installs without issues.

Has any one deployed the Net Agent in an OSD before?

Thanks in advance,

Paul

September 10 2009

Dear Students and Parents

On Wednesday, October 14, 2009 Walter Johnson High School (and schools around the nation) will administer the official Preliminary SAT (PSAT). The PSAT is a standardized test that provides firsthand practice for the SAT. I am happy to announce that the official test will be administered free of charge to all 10th and 11th grade Walter Johnson students. After being scored by the Educational Testing Service, the test results will be provided to students and these results can help our students to see their strengths and weaknesses on an SAT style exam. For our 9th grade students, Walter Johnson will provide a practice PSAT (free of charge) and this exam will also be scored and returned to students.

Counselors will visit English classes soon in order to review test procedures, to provide information and to answer questions. Information provided to students will include sample test questions as well as answers to the most commonly asked questions about the PSAT. You may also access additional information about the PSAT on the WJ website at www.walterjohnson.com/information/psat/. On the exam day, students should remember to bring a calculator to the test.

It is important to note that Wednesday, October 14th is an official school day and all 9th, 10th and 11th grade students are expected to attend the morning testing block. Student participation on the PSAT provides useful practice for the official SAT (which most students will take in the spring of their junior year). It simulates the SAT experience, exposes students to SAT-style questions and provides students with valuable feedback. For 11th grade students, taking the official PSAT also enters them in the National Merit Scholarship Corporation's scholarship programs.

In order for 10th and 11th grade students to receive testing accommodations on the official PSAT, they must be granted accommodations through the College Board. If a student has been approved by the College Board for accommodations on other tests (AP, SAT), he/she does not have to re-apply.

If you have additional questions about the test, please feel free to contact your student's counselor or Ms. Fran Irvin, assistant principal and testing coordinator. For our students, I wish you the best on the exam.

Sincerely,

Christopher Garran, Ph.D.
Principal

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur
Most Rev. George W. Ahr
Bishop of Trenton

STANDARD 5 TYPESTYLES

Pica is perhaps the most popular of all type styles. Generally regarded as standard for typewritten material, Pica is easy to read, conservative of space, and meets all requirements of general office work and correspondence. Pica Type gives copy that is pleasing in appearance and appealing to the eye.
ABCDEFGHIJKLMNOPQRSTUVWXYZ ;@@$%¥5£()_+1/4:",.?--1/2;',./

Empire Type is a distinctively shaded type ideally suited for executive and personal correspondence. A specially designed style, Empire meets the demand for a type face of outstanding distinction. Empire offers written material that is easy to read, pleasing in appearance, and appealing to the eye.
ABCDEFGHIJKLMNOPQRSTUVWXYZ

Presidential Pica offers the ultimate in distinctiveness for executive correspondence. The large shaded letters are easy to read and lend an air of differentness and importance to all correspondence. This distinctive type is highly recommended for preparing offset masters.
ABCDEFGHIJKLMNOPQRSTUVWXYZ

Elite with Pica spacing offers a distinctive appearance that is often favored for executive and personal correspondence. The wider spacing of this type provides copy of exceptional neatness and legibility. Ten Pitch Elite gives copy that is easy to read, pleasing in appearance, and appealing to the eye.
ABCDEFGHIJKLMNOPQRSTUVWXYZ

Presidental Elite is a new type style designed especially to please the most discriminating users. It is ideal for distinctive executive correspondence, and is also very satisfactory for most other office requirements. This distinctive type is highly recommended for preparing offset masters.

assurance wireless

3 FOR YOUR SECURITY

You qualify, you'll need an Account PIN to access your account and a Secret Answer in case you ever forget your PIN. Please write them down so safekeeping.

CHOOSE YOUR ACCOUNT PIN:

- It must be 6 numbers long
- No more than 3 consecutive numbers in a row (1234 won't work)

YOUR ACCOUNT PIN:

- Do not repeat numbers next to each other (44 won't work)
- No symbols or letters (@APPLE won't work)

AND

YOUR SECRET ANSWER

What is your favorite city?

Your Secret Answer: _____

IMPORTANT INFORMATION ABOUT THE LIFELINE PROGRAM: Assurance Wireless is a Lifeline supported service. Lifeline is a federal benefit, and only eligible subscribers may enroll. Customers who qualify may make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be denied or barred from the program. One Lifeline-supported service (landline or wireless) is available per household. A household is one or more individuals who live together at the same address and share income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. Violation of the one-per-household rule constitutes a violation of federal rules and will result in de-enrollment from the Lifeline program and possible prosecution by the United States government. Lifeline is a non-transferable benefit. Service cannot be transferred to any individual including any member of your family or household.

4 SIGNATURE

By signing below, I certify under penalty of perjury that the information contained within this Application is true and correct to the best of my knowledge.

If participate in a qualifying federal Program or meet the income qualifications to establish eligibility for Lifeline. If proof of eligibility is required, I have provided the required documentation as listed in Section 2

- If I have provided a temporary address, I must notify Assurance Wireless within 30 days of any change of address. Assurance Wireless will attempt to verify every 90 days that I continue to reside at that address. If I do not respond to these address verification attempts within 30 days I will be de-enrolled.

I will inform Assurance Wireless within 30 days of the following, and may be subject to penalties if I fail to do so:

- I move to a new address.
- I no longer participate in a Lifeline qualifying Program or my annual household income exceeds 135% of the Federal Poverty Guidelines.
- I become aware that my household is receiving more than one Lifeline benefit.
- For any other reason that no longer meet the criteria for Federal Lifeline support.

I authorize Assurance Wireless or its agent to access any records (including financial records) required to verify my statements herein and to confirm my eligibility for Assurance Wireless service. I authorize state or federal agency representatives to discuss with another provider information to Assurance Wireless verifying my participation in public assistance Programs. I attest that I am the sole subscriber to Assurance Wireless service.

- I authorize Assurance Wireless to provide my name to or release any records required for me administration of Assurance Wireless service.
- I understand that the owning either of the application date nor constitute immediate approval for Assurance Wireless service
- I acknowledge that providing false or fraudulent information to receive Life no benefits is punishable by law

You MUST place a check mark ☑ next to all 3 statements, then sign and date below.

☐ 1. I certify that my household will receive only one Lifeline Assistance benefit (wireless or wireline). To the best of my knowledge, my household (is not already receiving such a benefit, or if I currently receive a Life ne discount from a different phone service provider I consent to the transfer of my Life ne benefit to Assurance Wireless and understand that once the transfer is complete, I will lose my Lifeline program benefit with my current phone service provide. AND

☐ 2. I understand that I may be required to re-certify continued e gibility for Lifeline at any time. Failure to do so will result in the termination of my Lifeline benefits. AND

☐ 3. I consent to have my personal identification information she ed with the Universal Service Administrative Company (USAC) (the Lifeline Program's administrator) and/or its agents for the purpose of confirming the neither I nor my household receives more than one Lifel ne benefit.

YOUR APPLICATION CANNOT BE APPROVED WITHOUT 3 CHECK MARKS AND YOUR SIGNATURE.

Interpage INTERPAGE™ NETWORK SERVICES INC.

Phone: +1 (510) 315 2750 • Fax: +1 (650) 292 1600 • www.interpage.net

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file: many other file types are supported

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5.30 PM M-F Pacific Time

E-Mail: insi-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notice: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed simple message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at *http://www.interpage.net/sub-free-trial.html*, entering any billing information, and clearly indicating a valid e-mail number and number telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is at an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this net fax. A single destination may not receive more than two tests in a given week, however, if you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Vonage Test Fax

To	From
Fax	Fax
Phone	Phone
Subject Test Fax	Date

Fax Settings

Reference your Owner's Manual for help adjusting the settings below:

ECM (error correction mode)	Off
Baud Rate	9600
International	On (this is set on a per-call basis)
Resolution	Standard
Answer Mode	Fax Only
Rings to Answer	Zero (0)
Call Waiting	Off
Bandwidth Saver	High (90 kbps)
Distinctive Ring	Off

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device.
- Go from Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All-In-One device, temporarily disconnect device from PC

Further Assistance

If you need further assistance using your Vonage Fax Service we are always available to help

Call us at 1-VONAGE-HELP (1-866 243-4357) or visit **www vonage com**

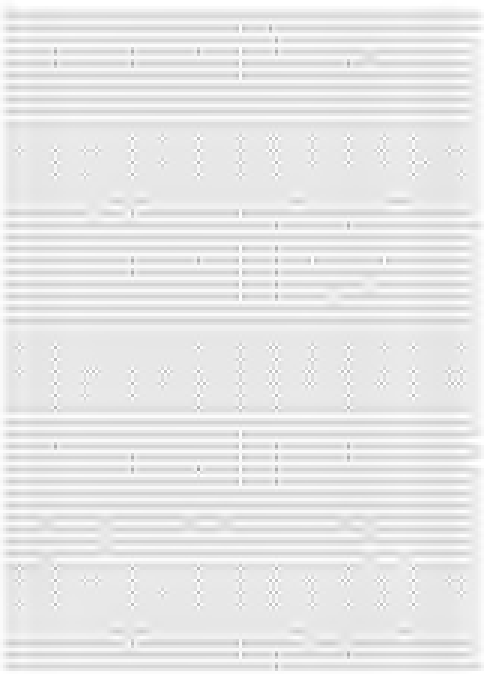
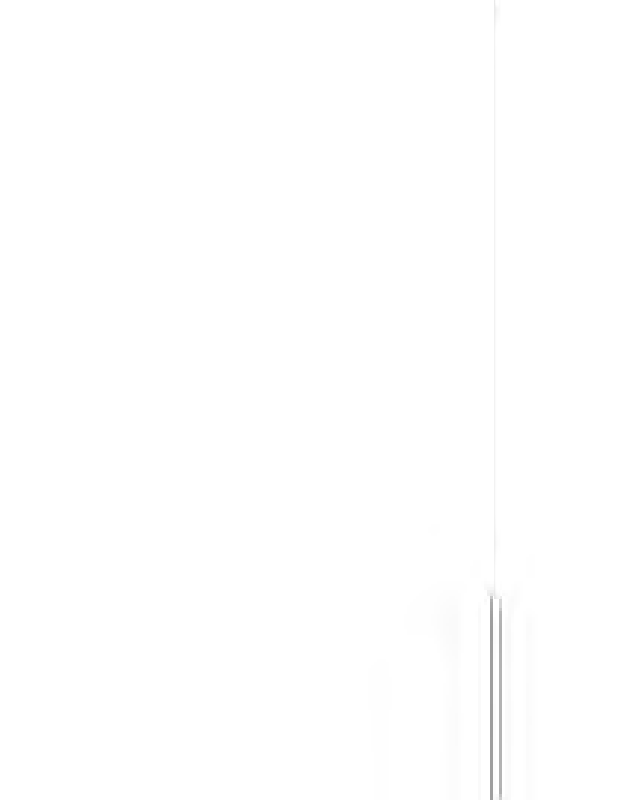
Hello Fax boy!

TEST

Hi Bob

Test fax from Circuit ID





If your authorized dealer has recently completed this recall repair, please disregard this reminder.

We apologize for any inconvenience this may cause and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

Thank you for your attention to this important matter.

Christmas

FOR YOUR CHILD'S CONTINUED SAFETY

Please take a few moments to promptly fill out and return the attached card (or register online using the direct link to the manufacturer's registration website provided).

Although child restraint systems undergo testing and evaluation, it is possible that a child restraint could be recalled.

In case of a recall, we can reach you only if we have your name and address, so please send in the card (or register online) to be on our recall list.

Please fill this card out and mail it NOW, (or register online at: www.evenflo.com/registeronline) while you are thinking about it

The card is already addressed and we've paid the postage.

Vonage Test Fax

Fill in the values below and click "Print Test Fax Page"

To	From Troy Herro
Fax:	Fax:
Phone	Phone
Subject: Test Fax	Date

Fax Settings

Reference your Owner's Manual for help adjusting the settings below:

ECM (error correction mode)	Off
Baud Rate	9600
International	On (this is set on a per-call basis)
Resolution	Standard
Answer Mode	Fax Only
Rings to Answer	Zero (0)
Call Waiting	Off
Bandwidth Saver	High (96 kbps)
Distinctive Ring	Off

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC

Further Assistance

If you need further assistance using your Vonage Fax Service we are always available to help

Call us at 1-VONAGE-HELP (1-866-243-4357) or visit **www.vonage.com.**

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

Windows® Fax and Scan

[illegible]

[illegible] you can send and receive faxes [illegible] on your computer, and scanners [illegible] to scan documents or pictures [illegible] you can also send faxes [illegible] have a modem and [illegible] fax number.

To send a fax

1. Connect a phone line to your computer.

   If you [illegible] a modem already [illegible] that's connected to your phone line, and then connect the phone to your computer.

2. On the command bar, click **New Fax**.

3. In the **To** box, type the fax number you want to send the fax to. If you're sending the fax to multiple recipients, separate each fax number with a semicolon (;).

To send a fax using an address book, click the **To** button, and then select the recipients from your address book. If the person you want to send a fax to isn't in your address book, you can add them to it.

To attach files to your fax, click **Attach File**, and then select the files you want to attach. You can also attach files by dragging them from a folder into the body of the fax.

To change fax settings, such as how and when to send a fax, click **Tools**, and then click **Fax Settings**. For more information about a setting, click the setting, and then press F1.

To scan a document or picture

1. Place the item you want to scan facedown on the scanner glass, or place it faceup in the document feeder.

2. In the navigation pane, click **Scan**.

3. Click **New Scan**.

4. Choose the scanner you want to use, and then choose the type of scan you want to perform.

   You can also adjust the settings to scan a picture or document to your liking. Click the **Help** button on the toolbar

Following is a statement of your rights with respect to your protected health information.

You have the right to inspect and copy your protected health information. Under federal law, however, you may not inspect or copy the following records: psychotherapy notes; information compiled in reasonable anticipation of or use in, a civil, criminal, or administrative action or proceeding; and protected health information that is subject to law that prohibits access to protected health information.

You have the right to request a restriction of your protected health information. This means you may ask us not to use or disclose any part of your protected health information for the purposes of treatment, payment or healthcare operations. You may also request that any part of your protected health information not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice of Privacy Practices. Your request must state the specific restriction requested and to whom you want the restriction to apply. Your physician is not required to agree to a restriction that you may request. If physician believes it is in your best interest to permit use and disclosure of your protected health information, your protected health information will not be restricted. You then have the right to use another Healthcare Professional

You have the right to request to receive confidential communications from us by alternative means or at an alternative location. You have the right to obtain a paper copy of this notice from us, upon request, even if you have agreed to accept this notice alternatively i.e. electronically.

You may have the right to have your physician amend your protected health information. If we deny your request for amendment, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal.

You have the right to receive an accounting of certain disclosures we have made, if any, of your protected health information.

We reserve the right to change terms of this notice and will inform you by mail of any changes. You then have the right to object or withdraw as provided in this notice.

Complaints

You may complain to us or to the Secretary of Health and Human Services if you believe your privacy rights have been violated by us. You may file a complaint with us by notifying our privacy contact of your complaint. We will not retaliate against you for filing a complaint.

We are required by law to maintain the privacy of and provide individuals with this notice of our legal duties and privacy practices with respect to protected health information. If you have any objections to this form, please ask to speak with our HIPAA Compliance Officer in person or by phone at our Main Phone Number.

Signature below is only acknowledgement that you have received this Notice of our Privacy Practices.

III.IV PRESSURE MOUNTED BETWEEN WROUGHT IRON RAILINGS OR RAILING AND WALL

A Installation – Figure 7 shows side on, wall installation, where mounting face is parallel to the wall. For wall installation as shown in figure 8 the mounting face is perpendicular to the wall. Before installation decide which way you want the gate to open and mark the wall where the gate will be mounted. NOTE: Make sure the mounting face is clean, dry and free from moisture, grease, dirt and other contaminants.

1. Measure distance from post to wall and add 1 ¼" (3.2 cm) to this measurement. Cut the 1 ¼" (3.2 cm) square tube to this length. Depending on the thickness of the wall, it may be necessary to file away any excess, to ensure a proper fit.
2. Remove the bolt, spring and washer from the hinge. Place the hinge in the recessed side of the square tube and align the holes in the hinge with the holes in the square tube. Insert the bolt through the hinge and square tube and fasten with the spring and washer. Do not tighten the bolt completely at this time.
3. Fasten the hinge to the square tube as shown in figure 7. Make sure the hinge is parallel to the square tube and that the hinge is positioned so that the gate will open and close properly. Tighten the bolt completely.
4. Using the hinge as a template, mark the location of the mounting holes on the wall. Drill the holes and insert the plastic anchors provided. Fasten the hinge to the wall using the screws provided.
5. Slide the gate onto the square tube. Make sure the gate is positioned so that it will open and close properly. Tighten the bolt completely.
6. Fasten the latch to the gate using the screws provided. Close the gate and mark the location of the latch on the wall. Drill the holes and insert the plastic anchors provided. Fasten the latch to the wall using the screws provided.

Figure 7

Figure 8

B Operation – See page one Instruction III

V HARDWARE MOUNTED

Level of difficulty: Installation: easy; Operation: easy; Maintenance: easy

A Installation – WARNING: DO NOT MOUNT GATE HINGES INTO SHEETROCK OR PLASTER. HARDWARE IS INCLUDED FOR USE IN SOLID MATERIALS ONLY, SUCH AS WOOD OR METAL.

1. Hold gate so that locking handle is on opposite side of latch post and flush to this post. Determine which side you want the gate to hinge on.
2. Slide the hinges onto the gate hinge. Be sure the hinges are on the gate as shown in figure 5. Fasten the hinges to the gate using the screws provided. Do not fasten top hinge screw all the way down.
3. Fasten the hinges to the post using the screws provided. Be sure screws are secure but not overtightened.
4. Place both hinge pins into the hinges. If you want the gate to close itself you can remove the gate hinge pin closest to the latch post. If you want the gate to stay open, remove the hinge pin on the gate hinge at the bottom end.

Do not allow gate to swing over stairs. Slide the gate hinge on the top of the gate up so the top casement hinge and fasten the hinge gate to the top gate with screws provided. Be sure the gate is positioned so that it will open and close properly.

5. Remove the plastic plug and insert the padlock or key-operated cylinder (not provided) into the latch. Be sure the latch is in the open position before inserting the padlock or cylinder. Make sure that the padlock or cylinder is secure.
6. Remove the protective cover from the hinge pins. Close the gate and insert the hinge pins into the hinges. Make sure the hinge pins are secure.
7. If desired, you may paint or stain the wood to match your existing fence. Do not paint or stain the hardware, the latch or the hinges. Wood must be completely dry before painting or staining.

Figure 5

Figure 6

B Operation

1. Push locking handle to the unlocked position (figure 2).
2. Enter gate through the open latch.
3. Pull the gate to the right (or left depending on which side you want to close the gate) and release the locking handle. The latch should automatically engage the latch post and secure the gate.
4. To open gate, release locking handle (figure 2) and push the gate open.

Keep you doped with religion and sex and TV
And you think you're so clever and classless and free
But you're still fucking peasants as far as I can see
A working class hero is something to be
A working class hero is something to be

Send/Receive Test

1 Load the paper into the fax machine following the manufacturer's instructions

2 Dial "1-888-473-2983" on the fax machine and press "Send" or "Start" depending on your fax machine

3 Wait for the fax to finish transmitting

You will receive a return fax from HP within five to seven minutes of completion. If the fax is received, then your machine is setup properly.

If you do not receive the fax, then there is a problem with its configuration

Fax Settings

Reference your Owner's Manual for help adjusting the settings below

ECM (error correction mode)	Off
Baud Rate	9600
International	On (this is set on a per-call basis)
Resolution	Standard
Answer Mode	Fax Only
Rings to Answer	Zero (0)
Call Waiting	Off
Bandwidth Saver	High (90 kbps)
Distinctive Ring	Off

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All-In-One device temporarily disconnect device from PC

Further Assistance

If you need further assistance using your Vonage Fax Service, we are always available to help

Call us at 1-VONAGE-HELP (1-866-243-4357) or visit **www.vonage.com**

Test

Netherlands **New York**

Why did the Dutch set up colonies in the New World?
In 1609 Henry Hudson was hunting for the Northwest Passage
He explored Hudson Bay (Canada) and the Hudson River (New York)
New Amsterdam was **established for trade**
The Dutch set up a colony at a fine harbor where the Hudson River meets the sea - New Amsterdam
In 1664 the British took over New Amsterdam, renaming it New York City

England **The Thirteen Colonies**

England saw Spain as its No. 1 rival for world power
Sir Francis Drake
In the 1560s and 1570s Francis Drake and his Seadogs were like pirates
With the permission of Elizabeth I the Queen of England he robbed Spanish ships loaded with gold. The Spanish Armada

In 1588 Spain sent its navy to invade England
Francis Drake (and bad weather) sank the Spanish Armada
With the Spanish Empire weakened, the British could pursue their own goals in the New World

Sir Walter Raleigh founded the first colony **FOR TRADE**
It was at **Roanoke Island** off the coast of North Caroline
The colony was **set up for trade** - they could sell raw materials to England
It did not survive - it became the "Lost Colony"

Jamestown was **the first permanent** colony **FOR TRADE**
In 1607, they established the first permanent English colony in the New World - at Jamestown, Virginia
It was financed by investors in England (a joint stock company) and given a charter (contract) by King James I
The colony was set up for trade – they could sell raw materials to England (Mercantilism)
The colony nearly died from starvation, but Captain John Smith made people work
Finally, they found a profitable cash crop they could **sell to England** – tobacco.

Plymouth was established **FOR RELIGIOUS FREEDOM**
The Pilgrims were dissenters who disagreed with the Church of England
They were **Separatists** – they separated from the Church of England
In 1620, the Pilgrims landed at Plymouth Rock.
They signed the **Mayflower Compact**, which stood for consent of the governed and majority rule

Re: Jones Motor Expedited, LLC
MC: 714929

Ladies and Gentlemen:

We are pleased to advise that, to enable Jones Motor Expedited, LLC to better service its customers, we have contracted with Jones Motor Expedited, LLC to purchase their accounts receivable.

Under the agreement between SevenOaks Capital Associates, LLC and Jones Motor Expedited, LLC, Jones Motor Expedited, LLC has assigned its present and future accounts to us. Accordingly, to the extent that you are now or may in the future become indebted to Jones Motor Expedited, LLC on an account or general intangible, payment thereof is to be made to us and not to Jones Motor Expedited, LLC or any other entity. Payment in any other way will not discharge this obligation.

To facilitate this process, please mail your payments to us at the following address:

SevenOaks Capital Associates, LLC
Department 470
P. O. Box 4869
Houston, TX 77210-4869

To assist us in applying payments please fax a copy of this letter (225) 757 1916 to us indicating your Federal Tax I.D. Number in the space: _____. This letter may only be revoked by a writing signed by one of our officers and acknowledged before a notary public.

We are enthusiastic about Jones Motor Expedited, LLC business prospects and are delighted to work with them to better serve you. Please call me at (225) 757 1919 should you have any questions. Thank you.

Very truly yours,

SEVENOAKS CAPITAL ASSOCIATES, LLC

Terms and Conditions

[illegible]

Acceptance: Your placing your order is an acceptance of these terms and conditions. Please read them carefully before you order.

Interest Summary: Typically the nominal rate of your [illegible] is the stated base [illegible] plus a margin. The base [illegible] is normally the Bank of England's official [illegible] rate. The margin [illegible] is the amount that we add to the base [illegible] to determine the [illegible] rate that we charge you. The margin [illegible] is expressed as a percentage per annum. The margin [illegible] is determined by us at the time that you apply for your [illegible] and it will not change during the [illegible] of your [illegible].

Early Repayment: You may repay all or part of your [illegible] at any time. If you repay your [illegible] early, you may be charged an early repayment charge. Please see your [illegible] for details.

Missing a payment: If you miss a payment, we may charge you a fee. We may also increase the margin that we charge you. Please see your [illegible] for details.

Arrangement fee: We may charge you a fee for arranging your [illegible]. This fee is known as the arrangement fee. Please see your [illegible] for details.

Security: We may require you to provide security for your [illegible]. This security is known as the security. Please see your [illegible] for details.

Insurance: We may require you to take out insurance in connection with your [illegible]. Please see your [illegible] for details.

Guarantee: We may require you to provide a guarantee in connection with your [illegible]. Please see your [illegible] for details.

Default: If you fail to make a payment when it is due, we may declare you in default. Please see your [illegible] for details.

Consequences of default: If we declare you in default, we may require you to repay the whole of your [illegible] immediately. We may also require you to repay any [illegible] that we have made to you. We may also require you to repay any [illegible] that we have made to you. We may also require you to repay any [illegible] that we have made to you.

Enforcement: If we declare you in default, we may enforce our rights against you. We may enforce our rights against you. We may enforce our rights against you. We may enforce our rights against you. We may enforce our rights against you.

Assignment: We may assign our rights under your [illegible] to any person. We may assign our rights under your [illegible] to any person. We may assign our rights under your [illegible] to any person. We may assign our rights under your [illegible] to any person.

Transfer: You may not transfer your rights under your [illegible] to any person. You may not transfer your rights under your [illegible] to any person. You may not transfer your rights under your [illegible] to any person. You may not transfer your rights under your [illegible] to any person.

Governing law: These terms and conditions are governed by the law of England and Wales. These terms and conditions are governed by the law of England and Wales. These terms and conditions are governed by the law of England and Wales. These terms and conditions are governed by the law of England and Wales.

Jurisdiction: The courts of England and Wales have exclusive jurisdiction to hear any dispute arising out of or in connection with these terms and conditions. The courts of England and Wales have exclusive jurisdiction to hear any dispute arising out of or in connection with these terms and conditions. The courts of England and Wales have exclusive jurisdiction to hear any dispute arising out of or in connection with these terms and conditions. The courts of England and Wales have exclusive jurisdiction to hear any dispute arising out of or in connection with these terms and conditions.

Entire agreement: These terms and conditions constitute the entire agreement between you and us in relation to your [illegible]. These terms and conditions constitute the entire agreement between you and us in relation to your [illegible]. These terms and conditions constitute the entire agreement between you and us in relation to your [illegible]. These terms and conditions constitute the entire agreement between you and us in relation to your [illegible].

Variation: We may vary these terms and conditions from time to time. We may vary these terms and conditions from time to time. We may vary these terms and conditions from time to time. We may vary these terms and conditions from time to time.

Waiver: If we do not insist that you perform any of your obligations under these terms and conditions, or if we do not enforce our rights against you, or if we delay in enforcing our rights against you, this will not mean that we have waived our rights against you and will not mean that you do not have to comply with those obligations. If we do waive a default by you, we will only do so in writing, and that will not mean that we will automatically waive any later default by you. If we do waive a default by you, we will only do so in writing, and that will not mean that we will automatically waive any later default by you. If we do waive a default by you, we will only do so in writing, and that will not mean that we will automatically waive any later default by you.

Severability: If any part of these terms and conditions is found to be unlawful, invalid or unenforceable, that part will be severed from these terms and conditions and the remaining terms and conditions will continue to apply. If any part of these terms and conditions is found to be unlawful, invalid or unenforceable, that part will be severed from these terms and conditions and the remaining terms and conditions will continue to apply. If any part of these terms and conditions is found to be unlawful, invalid or unenforceable, that part will be severed from these terms and conditions and the remaining terms and conditions will continue to apply.

Third party rights: No person other than you and us has any rights under these terms and conditions. No person other than you and us has any rights under these terms and conditions. No person other than you and us has any rights under these terms and conditions. No person other than you and us has any rights under these terms and conditions.

Notices: Any notice given under these terms and conditions must be in writing. Any notice given under these terms and conditions must be in writing. Any notice given under these terms and conditions must be in writing. Any notice given under these terms and conditions must be in writing.

5 Siget Court, Unit 202 Monroe NY 10950

Defendant

s

STATE OF NEW YORK)
COUNTY OF ERIE SS
CITY OF BUFFALO)

The below signed under penalty of perjury states

1 That I am an attorney at law, duly licensed to practice in the State of New York, and a member of the firm of Gelman & Bityk, LLP attorneys for plaintiff in the above captioned action

2 That this affidavit is made in support of the plaintiff's request for entry of default judgment pursuant to CPLR 3215 and for plaintiff's claim for attorneys fees in the above entitled action.

3. Defendants are in default in answering the complaint in this matter and as such plaintiff is entitled to judgment as a matter of law

4 That the claimed attorneys' fees in the sum of $12,735 93 represents 25% of the principal amount of $50,943 73 claimed by the plaintiff under documents signed by the defendant that defendant would pay attorneys fees if the matter is referred to an attorney for collection or suit 25% is a reasonable percentage for attorneys' fees and is the generally accepted percentage used in the field of commercial collection.

5 That the attorneys fees sued for in this action represent attorneys' fees that will actually be paid to the undersigned attorneys in accord with their agreement with the plaintiff The attorneys fees claimed in this action represent the fair and reasonable charge for the services to be rendered by the undersigned attorneys in this action, which services include receiving, processing, and reviewing the initial claim, determining the correct parties to sue, determining the correct jurisdiction in which the action should be brought, making personal demands upon the defendant by telephone and in writing, drafting Summons

Amendment VI

In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defence.

Amendment VII

In suits at common law where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise reexamined in any Court of the United States than according to the rules of the common law.

Amendment VIII

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Amendment IX

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

Amendment X

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

AMENDMENTS 11-27

Amendment XI

Passed by Congress March 4, 1794. Ratified February 7, 1795.

[Note: A portion of Article III, Section 2 of the Constitution was modified by the 11th Amendment.]

The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.

Amendment XII

Passed by Congress December 9, 1803. Ratified June 15, 1804.

[Note: A portion of Article II, Section 1 of the Constitution was changed by the 12th Amendment.]

The Electors shall meet in their respective states, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. [And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice President shall act as President, as in case of the death or other constitutional disability of the President.]* The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

*Superseded by Section 3 of the 20th Amendment.

Fax Test Report for
Mr Claude W Bynum
7575624041
Nov 26 2016,5:03PM

Fax Hardware Test	**PASS**
Fax Connected to Active Telephone Wall Jack	**PASS**
Phone Cord Connected to Correct Port on Fax	**PASS**
Using Correct Type of Phone Cord with Fax	**PASS**
Dial Tone Detection	**FAIL**
Fax Line Condition Test	**FAIL**

Your fax line has a weak signal.

A dial tone was not detected.

Please check the items below then rerun this test.

Other equipment sharing the fax line can reduce the signal strength

Disconnect any equipment which is sharing the fax line (including extension phones, answering machines, and dial up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

If the Fax Line Condition test still fails, contact your phone service provider to have the fax line checked

If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system, the Dial Tone Detection test may fail.

However, you should be able to successfully send and receive faxes

Refer to your User Guide for more information on the fax test and settings.

Instructions on how to rerun this test
Step 1. Choose the "Fax" menu
Step 2. Choose the "Settings" menu
Step 3. Choose the "Advanced Settings" menu
Step 4. Choose the "Fax Reports" menu
Step 5. Choose the "Fax Test Report" menu

we say we belong to Jesus, we ought "to walk, even as he walked" (1 John 2 6) We need to be obedient to the divine will That s what our Lord meant when He said, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father, who is in heaven" (Matt 7 21)

The true disciple is marked by dying to self taking up the cross, and living in obedience. In John 8 31 Jesus says, 'If ye continue in my word, then are ye my disciples indeed ' If you were going to take a trip, the first thing you'd do is say good-bye and pick up your bags The second thing you'd do is proceed on your trip The same applies here You say good-bye to self, pick up your burden (your cross), and follow in loyal obedience

II. THE PARADOX (vv. 25-26)

A. The Eternal Choices (v. 25)

'Whosoever will save his life shall lose it, and whosoever will lose his life for my sake shall find it '

Whoever lives only to preserve his earthly comforts will lose his eternal soul But whoever is willing to deny himself and follow Christ will save his soul You have a choice The Greek word here translated 'life' is frequently translated elsewhere as "soul" or "self ' Christ is referring to your soul, the internal part of you

A willingness to pay the price may mean martyrdom, as in the case of Paul It may mean sickness, as in the case of Epaphroditus (Phil 2:25 27) It's not likely to mean martyrdom in our day, but if a person truly follows Jesus Christ, he must be willing to abandon his own security and comfort

Willing to Pay the Price

You may be familiar with the story of the slaveowner and his godly slave This particular slave was always happy and singing all the time No matter what anyone did to him he never changed One day his master said to him, "What have you got?" The slave said, "I love the Lord Jesus Christ because He has forgiven my sin. And that puts a song in my heart." The master said, 'I want what you have ' The slave replied, "Then go put on your white suit and come down here and work in the mud with us Then you can have what I have ' The master said that was beneath him and rode away But he came back later because he so admired the slave's attitude toward life He said once again, "What do I have to do to have what you have?' The slave again relied, "Put on your white suit and work in the mud with us Then you can have it ' But he rode off in a huff Some weeks later he returned and said, 'I want you to give it to me straight. What do I have to do to have what you have?" The slave said, "I already told you what you have to do." Finally in desperation the master said, 'I'll do it ' The slave replied, 'Good! Then you don't have to You only had to be willing to do it." I'm not saying God will make you a martyr But if

Diagnostic Data						
Assay Results				Reference Range		
Assay Name	Intensity Score	Percent	Result	Favorable Negative / Low	Borderline Intermediate	Unfavorable Positive / High
Her-2 Assay	N/A		N/A			
Estrogen Receptor	N/A		N/A	>= 1% (Favorable)		< 1% (Unfavorable)

Assay Description and Limitations

Assay Description: [text illegible] is immunohistochemical assay for detection of HER2 protein overexpression in the above breast infiltrating carcinoma tissue specimen. Assay is performed on formalin-fixed, paraffin-embedded tissue sections using [illegible] monoclonal antibody. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Estrogen Receptor (ER): Immunohistochemical staining was performed on the above specimen using [illegible] monoclonal antibody. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Progesterone Receptor: [illegible] monoclonal antibody was used for the qualitative immunohistochemical staining of formalin-fixed, paraffin-embedded tissue sections. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Ki-67: [illegible] was used for qualitative and/or semi-quantitative immunohistochemical staining of Ki-67 antigen expression in formalin-fixed, paraffin-embedded tissue by automated immunostainer. Staining using the manufacturer's instructions.

p53: [illegible] monoclonal antibody was used for the qualitative and/or semi-quantitative immunohistochemical staining of human p53 protein in formalin-fixed, paraffin-embedded tissue sections. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

Safety information

CAUTION—POTENTIAL INJURY: See the enclosed *Safety Sheet* before making any cable or electrical connection

Connect the power cord to a properly grounded electrical outlet that is near the product and easily accessible

Do not place or use this product near water or wet locations.

CAUTION—POTENTIAL INJURY: This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Use care when you replace a lithium battery

CAUTION—POTENTIAL INJURY: There is a danger of explosion if a lithium battery is incorrectly replaced. Replace it only with the same or an equivalent type of lithium battery. Do not recharge, disassemble, or incinerate a lithium battery. Discard used batteries according to the manufacturer's instructions and local regulations.

CAUTION—HOT SURFACE: The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching.

CAUTION—POTENTIAL INJURY: The printer weight is greater than 18 kg (40 lb) and requires two or more trained personnel to move it safely.

CAUTION—POTENTIAL INJURY: Before moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Turn the printer off using the power switch, and then unplug the power cord from the wall outlet.
- Disconnect all cords and cables from the printer before moving it.
- Lift the printer off the optional drawer, and set it aside instead of trying to lift the drawer and printer at the same time.

  Note: Use the handholds located on both sides of the printer to lift it off the optional drawer.

Use only the power cord provided with this product or the manufacturer's authorized replacement.

CAUTION—SHOCK HAZARD: If you are accessing the system board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the wall outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

CAUTION—SHOCK HAZARD: Make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.

CAUTION—POTENTIAL INJURY: Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

Refer service or repairs, other than those described in the user documentation, to a professional service person.

CAUTION—SHOCK HAZARD: To avoid the risk of electric shock when cleaning the exterior of the printer, unplug the power cord from the wall outlet and disconnect all cables from the printer before proceeding.

Autumn Stroll

CINNAMON APPLE PIE

INGREDIENTS:

Crust:
- 1 refrigerated Pie Crust
- 1 Tbsp. butter, melted
- 2 tsp. cinnamon

Filling
- 2 cans Lucky Leaf Premium Apple Fruit Filling
- 1 stick butter, softened (8 Tbsp.)
- 1 cup flour
- 1 cup light brown sugar

Icing:
- ½ cup powdered sugar
- ¼ tsp. vanilla
- ¼ tsp. cinnamon
- 2 tsp. milk

DIRECTIONS:

Preheat oven to 400°F • **Unroll** pie crust on lightly floured surface • **Brush** with butter and sprinkle evenly with cinnamon • **Roll up** tightly and slice into 1/2-inch rounds. Use remainder cinnamon rolls • **Press** evenly into bottom and sides of 9-inch pie pan, making sure there are no spaces between the rolls • **Pour** 2 cans of Lucky Leaf Premium Apple Fruit Filling on top of the crust • **Combine** butter rolls and brown sugar in a large bowl and form into crumbles using a pastry blender • **Sprinkle** crumbles over apple filling • **Bake** until top and crust are golden brown and filling is bubbling, about 40-45 minutes (cover loosely with foil if necessary) • **Remove** from oven and cool • **Whisk** together powdered sugar, vanilla, cinnamon and milk in small bowl to form icing (add more sugar or milk to reach desired consistency) • **Drizzle** over cooled pie

Find more recipes, tips, videos & more at LUCKYLEAF.COM

can get it.

4. Place the contents of your wallet on a photocopy machine. Do both sides of each license, credit card, etc. You will know what you had in your wallet and all of the account numbers and phone numbers to call and cancel. Keep the photocopy in a safe place. I also carry a photocopy of my passport when I travel either here or abroad. We've all heard horror stories about fraud that's committed on us in stealing a Name, address, Social Security number, credit cards.

Unfortunately, I, an attorney, have first hand knowledge because my wallet was stolen last month. Within a week, the thieve(s) ordered an expensive monthly cell phone package, applied for a VISA credit card, had a credit line approved to buy a Gateway computer, received a PIN number from D MV to change my driving record information online, and more.
But here's some critical information to limit the damage in case this happens to you or someone you know:

5. We have been told we should cancel our credit cards immediately. But the key is having the toll free numbers and your card numbers handy so you know whom to call. Keep those where you can find them.

6. File a police report immediately in the jurisdiction where your credit cards, etc., were stolen. This proves to credit providers you were diligent, and this is a first step toward an investigation (if there ever is one).

But here's what is perhaps most important of all: (I never even thought to do this.)
7. Call the 3 national credit reporting organizations immediately to place a fraud alert on your name

To the right is a copy of my receipt for the purchase of two identical monitors. One of them started to fail last month

Monitor	22365BT
Model Code	LS22IOEUYQ
Serial Number	XD22Z828592P

MONITOR PROBLEM

The monitor started to take longer to become usable after turning it on when it had been off for a while.

At the time it was sent in for repair, it started out dark, flickered and took at least a minute to reach full brightness after being turning on.

[DOCID:fr25ap02-32]

DEPARTMENT OF ENERGY

National Nuclear Security Administration; National Nuclear Security Administration Advisory Committee

AGENCY: National Nuclear Security Administration, Department of Energy

ACTION: Notice of closed meeting.

SUMMARY: This notice announces a meeting of the National Nuclear Security Administration Advisory Committee (NNSA AC). The Federal Advisory Committee Act, 5 U.S.C. App. 2 10(a)(2) requires the publication of these meetings as announced in the Federal Register.

DATES: Thursday, May 16, 2002--1300-1730; Wednesday, May 15 and Thursday, May 16, 2002--0900-1700

ADDRESSES: Science Applications International Corporation (SAIC), 1710 SAIC Drive (formerly Gorman Mills), McLean, VA.

FOR FURTHER INFORMATION CONTACT: Betsy (BJ) Morris, (202-586-6912) Executive Officer, NNSA AC.

SUPPLEMENTARY INFORMATION:

Purpose of the Committee: To provide the Administrator for Nuclear Security with advice and recommendations on matters of technology, science, and operations that lie within the mission and responsibilities of the National Nuclear Security Administration. Additional information about the Committee, including its charter, members, and reports is available at: www.nnsa.doe.gov.

Purpose of the Meeting: To discuss national security research, developments, and policy progress.

Closed Meeting: In the interest of national security, the meeting will be closed to the public, pursuant to the Federal Advisory Committee Act, 5 U.S.C. App 2 10(d), and the Federal Advisory Committee Management Regulation, 41 CFR 102-3.155. The AC are advisory, committee meetings closed to the public if ``, which is empowered by reference the Government in the Sunshine Act, 5 U.S.C. 552b, which at Sec. 552b (c)(1) and (, (3) provide closure of meetings where restricted data or other classified matters are discussed.

Minutes: Minutes of the meeting will be recorded and close [illegible] accordingly

Issued at Washington, DC, April 22, 2002

how do test a fax to see if it is working? i keep trying to fax something, and have tripe-checked the phone # and

it still won't go through My fax says, "fax unanswered " Is it possible MY fax doesn't work? he said he has gotten 2 faxes already today (not from me) what do I do to check it?

More search results: **why won't my faxes go through**

How Can I Test My Fax Machine?

Presumably, you want to test your fax machi ne by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California) when it's finished transmitting, point your web browser to Fax Tiny — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. With a a few m nutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Answer from Starfire

Test the number you are sending to

If I get a delivery fai ure on my machine, the first thing I do is dial the number from my regular phone and see what kind of tone I get. If I get the normal fax tone (a kind of high-pitched shrill whistle tone) then I know that, first of all, the fax number I am using is valid/correct and secondly, that their mach ne is work ng. I then re-try faxing from my machine. If I get something else, like a busy signal, that usually means the recipient's machine is occupied and I

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Table 4 Test Set Keypad Controls and Indicators (Cont'd)

Key	Description
RCL Key	The RCL (Recall) key is used for the storing and recalling of repertory dialing numbers. See the Function Special Dialing Numbers Section.
FLASH Key	The FLASH (Hook-Flash) key is used to interrupt loop current for a timed duration. The FLASH key only operates when the test set is off-hook. When pressed, the FLASH key will interrupt loop current for the programmed hook-flash duration. See the Hook Flash Duration Section.
LNR Key	The LNR (Last Number Redial) key is used to redial the number most recently dialed. See the Last Number Redial Section for more details.
PAUSE Key	The PAUSE key is used to insert a timed pause into a stream of dialed digits. The PAUSE key is commonly used in combination with stored dial numbers that will be dialed out through a PBX. The duration of the pause is user programmable. See the Pause Duration Section.
STORE/PROG KEY	The STORE/PROG key is used for storing speed dialing numbers and for programming special test set functions.
TONE/PULSE KEY	The TONE/PULSE key is used to switch between tone and pulse dialing. The TONE/PULSE key is only active when the test set is off-hook. Any time the test set goes off-hook it is automatically set to tone dialing. Once off-hook, pressing the TONE/PULSE key will change the dialing mode to pulse dialing. Pressing the key again will switch back to tone dialing.
TEST Key	The TEST key (see Figure 3) is used to perform three different tests. Two of the tests are performed when the test set is on-hook and one of the tests is performed when the test set is off-hook. The results of the tests are meaningful only if the unit's test leads are connected to tip and ring of a subscriber line. When the test set is on-hook, pressing the TEST key causes two tests to be executed. Both tests are performed simultaneously. When the TEST key is pressed, the test set will search for data on the telephone line. If the test set detects data, the data detect alarm sounds for about 3 seconds, letting the user know there is data on that particular line. If there are data, the test set sounds a brief confirmation tone indicating the test was run and no data was detected. Simultaneously, the test set will measure the DC voltage across Tip and Ring and will display by LED whether the voltage is high, low or normal. The indications provided by the test are described under Hi/Lo Voltage LEDs. The purpose of the test is to give the technician a rough idea of the DC voltage on the line. For example, the user runs the test expecting a normal battery feed of -48 Vdc on a particular line, instead the amber LED flashes, indicating the dc voltage is lower than a normal CO battery. This tells the user that they may be connected to the wrong pair and should do more further investigation to find out why the pair's battery is not normal. The FOL LEDs double as low loop current indicators. When off-hook and the TEST key is pressed, if the current reading is below 23 mA the LED corresponding to the line polarity will flash for 5 seconds. If the loop current is normal, the LED will light solid. Low loop current may indicate a problem on the line.
Light Emitting Diodes (LEDs)	All LED indicators are located on the keypad (see Figure 3) inside the recessed area.
MUTE LED	The MUTE LED flashes when the mute function is activated.
LOW/LO Battery LED	The LO BATT LED (low battery) (see Figure 3) flashes when the 9V battery is nearing the end of its life. The low battery LED will only become active in operating modes that use the battery.

ping [-LRUbdfhnqrvVaAB] [-c count] [-i interval] [-I interface] [-p pattern] [-s packetsize] [-t ttl] [-w deadline] [-F flowlabel] [-I interface] [-M hint] [-N nodeinfo] [-S sndbuf] [-T timestamp option] [-W timeout] [hop ...] destination

Description

ping uses the ICMP protocol's mandatory ECHO_REQUEST datagram to elicit an ICMP ECHO_RESPONSE from a host or gateway. ECHO_REQUEST datagrams ("pings") have an IP and ICMP header, followed by a struct timeval and then an arbitrary number of "pad" bytes used to fill out the packet.

Options

-a
Audible ping.

-A
Adaptive ping. Interpacket interval adapts to round-trip time, so that effectively not more than one (or more, if preload is set) unanswered packets present in the network. Minimal interval is 200msec for not super-user. On networks with low rtt this mode is essentially equivalent to flood mode.

-b
Allow pinging a broadcast address.

-B
Do not allow ping to change source address of probes. The address is bound to one address, which ping shows.

-c count
Stop after sending count ECHO_REQUEST packets. With deadline option, ping waits for count ECHO_REPLY packets, until the timeout expires.

-d
Set the SO_DEBUG option on the socket being used. Essentially, this protocol-option is not used by Linux kernel.

-F flow label
Allocate and set 20 bit flow label on echo request packets. (Only ping6). If value is zero, kernel allocates random flow label.

-f
Flood ping. For every ECHO_REQUEST sent a period "." is printed, while for every ECHO_REPLY received a backspace is printed. This prints up to two characters per packet sent, or more if there is packet loss. Only the super-user may use this option with zero interval.

-i interval
Wait interval seconds between sending each packet. The default is to wait for one second between each packet normally, or not more than 10 in flood mode. Only super-user may set interval to values less 0.2 seconds.

-I interface address
Set source address to specified interface address. Argument may be numeric IP address or name of device. When pinging IPv6 link-local address this option is required.

-l preload
If preload is specified, ping sends that many packets not waiting for reply. Only the super-user may select preload more than 3.

-L
Suppress loopback of multicast packets. This flag only permitted if the ping destination is a multicast address.

-n
Numeric output only. No attempts will be made to lookup symbolic names for host addresses.

-p pattern
You may specify up to 16 "pad" bytes to fill out the packet you send. This is useful for diagnosing data-dependent problems in a network. For example, -p ff will cause the sent packet to be filled with all ones.

-Q tos
Set Quality of Service -related bits in ICMP datagrams. tos can be either decimal or hex number. Traditionally (RFC1349), these have been interpreted as: 0 for normal, low-priority bytes, reliability, or congestion control, 1-4 for Type of Service and 5-7 for Precedence. Possible settings for Type of Service are: minimal cost, reliability, throughput, low latency (rfc1349). Multiple TOS bits should not be set simultaneously. Possible settings for special Precedence range from priority (rfc791) or net control (rfc1349). You must be root (CAP_NET_ADMIN capability) to use Critical or higher precedence value. You cannot set bit rfc1349 (obsoleted) values. ECN has been enabled in this kernel. In RFC2474 these bits has been redefined as 6-bit Differentiated Services (DS), consisting of: bits 0-1 of symbolic else (ECN will be used here), and bits 2-7 of Differentiated Services codepoints (DSCP).

-q
Quiet output. Nothing is displayed except the summary lines of startup-time and when finished.

-R
Record route. Includes the RECORD_ROUTE option in the ECHO_REQUEST packet and displays the route buffer on returned packets. Note that the IP header is only large enough for nine such routes. Many hosts ignore or discard this option.

-r
Bypass the normal routing tables and send directly to a host on an attached network. If the host is not on a directly-attached network, an error is returned. This option can be used to ping a local host through an interface that has no route through it (provided the option -I is also used).

-s packetsize
Specifies the number of data bytes to be sent. The default is 56, which translates into 64 ICMP data bytes when combined with the 8 bytes of ICMP header data.

-S sndbuf
Set socket sndbuf. If not specified, it is selected to buffer not more than one packet.

-t ttl
Set the IP Time to Live.

-T timestamp option
Set special IP timestamp options. timestamp option may be either tsonly (only timestamps), tsandaddr (timestamps and addresses) or tsprespec host1 [host2 [host3 [host4]]] (timestamps prespecified hops).

-M hint
Select path MTU discovery strategy. hint may be either do (prohibit fragmentation, even local one), want (do PMTU discovery, fragment locally when packet size is large), or dont (do not set DF flag).

-U
Print full user-to-user latency (the old behaviour). Normally ping prints network round trip time, which can be different f.e. due to DNS failures.

-v
Verbose output.

-V
Show version and exit.

-w deadline
Specify a timeout, in seconds, before ping exits regardless of how many packets have been sent or received. In this case ping does not stop after count packet are sent, it waits either for deadline expire or until count packets are answered, or for some error notification from network.

Windows Fax and Scan

Create, send, receive, and view faxes and scans

Make sure you have a scanner or digital camera installed before you begin scanning documents or pictures. You can also print, e-mail, or save a copy of your faxes.

To send a fax:

1. Choose a recipient from your contacts.

   If you can't find the person you want to send a fax to in your contacts, you can enter the fax number manually.

   Click the Fax and Scan button.

2. Select the fax you want to send, and then click Send. If you're sending a fax to more than one recipient, you can select multiple faxes.

To scan a document or picture and save it as a file on your computer, you can use the Windows Fax and Scan program. After you scan an item, you can crop it, rotate it, and adjust the brightness and contrast before you save it. You can also scan directly into an e-mail message or a document.

To scan a picture:

1. Make sure your scanner is turned on and ready to use.

2. In Windows Fax and Scan, click New Scan.

3. Select the scanner you want to use, and then click New Scan.

4. Select the settings you want to use for the scan, and then click Preview to see how the scanned item will look. When you're satisfied with the preview, click Scan.

Questionnaire

Patent Project No. _____

Answer all questions, indicate if not applicable or unknown

1. State concerned _____ Work Order No. to which invention's time was charged when the invention was conceived: _____.

   Drawing Number of first sketch having invention and date: _____.

   Date of first sketch: _____ Date of first successful test: _____

   Work Order No. used for first successful test: _____

2. Earliest disclosure of the invention prior to presentation of this Invention Disclosure was made to the following employees:

   (1) _____ Date: _____

   (2) _____ Date: _____

   (3) _____ Date: _____

3. The invention contributed to meeting the work statement requirements of Government Contract No. (if any) _____

   Government Security Classification: _____

4. Specific product to which invention applied when conceived: _____

   Specific development to date: _____

   _____

   Planned future development: _____

   _____

   In what other related and/or unrelated products may the invention be useful? _____

   _____

5. First product incorporating the invention: its date of first sale or offer for sale, and its scheduled date of production

   _____

   _____

   Nature and date of first public disclosure of the invention: _____

   _____

6. Inventor(s) information:

Full Name (please print)	Tel. Ext.	Location	Division

Inventor _____ Citizenship _____

It is essential that the invention herein described be submitted only in the name of the true inventor or inventors. To qualify as a sole inventor you must have conceived the invention yourself. To qualify as a co-inventor you must not only have worked on the invention but also have made a contribution and/or idea therein in an inventive capacity. If and when a patent application is filed for the invention you must make a oath or declaration that you are a true inventor or co-inventor. Furthermore, more or less than the correct number of true inventors can jeopardize the validity of any patent issuing on the invention and result in the loss of valuable patent rights.

WEST PARK HOMEOWNERS ASSOCIATION
MINUTES
APRIL 24, 2018

CALL TO ORDER: Rinda Krumme called the meeting to order at 5:00PM. Those Board members present were Doug Hein, A.J. Brown, Nancy Nunn and Craig Johnson.

APPROVAL OF MINUTES: A motion was made, seconded and approved to accept the minutes as read.

ATTENDANCE OF ASSOCIATION MEMBERS: Those present were Mark Stevenson, Thomas Herman, and Barbara Hein.

MANAGER'S REPORT: The Property Manager's Report was approved subject to a [illegible] Board members. After discussion, it was determined to have the Property Manager [illegible] evaluation of the roofs done to determine what roofs will be done this year. [illegible] of ~$121,000.00 to reroof 17 units. An evaluation of the siding is [illegible] be done in accordance with our budget. It is too early to get a [illegible] frames for some of the mailboxes that need work as well as 39 that have [illegible] The pool is in need of evaluation for leaks. If the leaks are determined to [illegible] the pool will be opened on the 25th of May. To conform with the code of the [illegible] will hire a CPO (certified Pool Operator) to maintain the pool. [illegible] soliciting volunteers to assist in the operation.

POND COMMITTEES: The Pond Committee presented a plan that would be [illegible] to maintain our "waterways." As this is a requirement of the City, and [illegible] all Units at West Park, it is deemed to be important. The committee was [illegible] this fall. The report will be reviewed by the Board and will be discussed [illegible] As there is no money for this project this year in the budget, it is hoped [illegible] provided in next year's budget. The committee was asked if the [illegible] time sensitive. For those interested...a website for the contractor is [illegible].COM'

POOL HOURS: Pool hours were discussed and, in light of the requirement for having a CPO, [illegible] have been changed to 9:00AM - 9:00PM.

NEW BUSINESS: It was brought to the attention of the Board that some waste receptacles are being [illegible] from the curb and put into garages on a timely basis. It is the feeling of the Board that [illegible] Owners cannot get their waste carts into their garages by the Friday morning [illegible] on Thursday, that a fine should be levied. Discussion of this will take place at [illegible] The Annual Meeting will take place in June. Unit owners will be notified as [illegible] when the date has been set.

ADJOURNMENT: [illegible] at 6:51 PM., a motion was made, seconded and approved to adjourn the [illegible] ing was adjourned to 5:00 PM. May 22, 2018 at the offices of Benchmark [illegible] 350 Office Park Road, Suite 300, West Des Moines, Iowa.

- ✓ But that a few investors wearing blue jeans and t-shirts at a small office in Virginia had their own plans for surviving — and thriving — in the teeth of this gathering storm. Led by portfolio advisor Jel Fischer
- ✓ That, this very same morning, they were launching a new fangled online portfolio recommendation service. With step-by-step allocation guidance plus new simple, but powerful, options strategies.
- ✓ That they were enacting an audacious "North Star" statement for this service that aimed to make money (and even BEAT the stock market's average return) over the long-term, while avoiding losses over the short-term.
- ✓ And that they were backing it with their company's own real money, at a time that it was pinching every penny.

Yeah, I have called me a Fool.

Look, I scarcely believed this story myself when Tom and Jim assured it with me over beers on Victoria Day

And, I haven't even told you the most amazing part yet.

Every $50k of Foolish cash invested into the *Pro* portfolio that morning is now worth $123,495 today

Now as I am mentioned to you the other day, Canada is rather different from the U.S. (Our investment advisers are more handsome.)

And 2018 is a VASTLY different investing landscape from 2008.

Because like Twain said, history doesn't repeat.

Although you might call them rhyming drum stories.

Moreover, the tools that *Motley Fool Pro (U.S.)* used to generate that incredible market-crushing, risk-smoothing return are not the same as those that *Motley Fool Pro Canada* will employ

Nor should they be! We'll have our own goals and methods, based on the needs of our small group of members

But if you're looking for another example of this type of "rhyme"... one that may sound even more like music to your ears, even though it's coming from halfway across the world...

Look no further than Australia.

Where lightning struck again. When our lead portfolio advisor Joe Magyer launched *Motley Fool Pro Australia*

A service that has surpassed its own lofty goals, by more than DOUBLING the market return. And churning out $5,330 in PURE PROFIT for every $50k invested.

In its first 18 months!

Well, I happen to think we Canadians can rhyme that tune as well. Which is why I'm putting my own money on the table

...launched during the worst of the 2008 bear market, your group of investors would TODAY have a total of $50k x ... = $123,495

$50k into $123,495 in just 18 months

Let's see what we can do with our money together, eh?

Hello World!

Test Print

This printer is now ready for printing

After this Quick Menu opens automatically
Quick Menu is a shortcut menu that lets you access functions you want to use with one click
You can access CREATIVE PARK PREMIUM the Online Manual etc.

* The screen display varies depending on your printer

CREATIVE PARK PREMIUM ( )

You can download popular characters or artwork of famous artists and print them
CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon Ink for all colors.

Online Manual ( )

The Online Manual is an instruction manual on the website It contains the latest information needed for operations such as printing You can also use it for troubleshooting when problems arise

* An Internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink jet printers We recommend using Canon genuine consumables to maintain printer performance and ensure consistency

3 FOR YOUR SECURITY

You qualify, you'll need an Account PIN to access your account and a Secret Answer in case you ever forget your PIN. Please write them down for safekeeping.

CHOOSE YOUR ACCOUNT PIN:

- It must be 6 numbers long
- No more than 3 consecutive numbers in a row (1234 won't work)
- Do not repeat numbers next to each other (44 won't work)
- No symbols or letters (@$PRTE won't work)

YOUR ACCOUNT PIN: ☐☐☐☐☐☐

AND

YOUR SECRET ANSWER

What is your favorite city?

Your Secret Answer: _____

IMPORTANT INFORMATION ABOUT THE LIFELINE PROGRAM. Assurance Wireless is a Lifeline supported service. Lifeline is a federal benefit, and only one subscriber may receive it per household. Customers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be de-enrolled or barred from the program. One Lifeline supported service (landline or wireless) is available per household. A household is one or more individuals living together at the same address and sharing income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. Violation of the one-per-household rule constitutes a waste of federal funds and will result in de-enrollment from the Lifeline program and potential prosecution by the United States government. Lifeline is a non-transferable benefit. Service cannot be transferred to any individual, including another member of your household. Limit 1 per household.

4 SIGNATURE

By signing below I certify under penalty of perjury that the information contained within this Application is true and correct to the best of my knowledge.

I participate in a qualifying federal Program or meet the income qualifications to establish eligibility for Lifeline. If proof of eligibility is required, I have provided the required documentation as listed in Section 2.

- If I have provided a temporary address, I must notify Assurance Wireless within 30 days of any change of address. Assurance Wireless will attempt to verify every 90 days that I continue to reside at that address. If I do not respond to these address verification attempts within 30 days, I will be de-enrolled.
- I will inform Assurance Wireless within 30 days of the following and may be subject to penalties if I fail to do so:
  - I move to a new address;
  - I no longer participate in a Lifeline qualifying Program or my annual household income exceeds 135% of the Federal Poverty Guidelines;
  - I become aware that my household is receiving more than one Lifeline benefit;
  - For any other reason, I no longer meet the criteria for Federal Lifeline support.
- I authorize Assurance Wireless or its agent to access any records (including financial records) required to verify my statements herein and to confirm my eligibility for Assurance Wireless service. I authorize State or federal agency representatives to discuss with, and/or provide information to, Assurance Wireless verifying my participation in public assistance Programs or my qualifying for Assurance Wireless service.
- I authorize Assurance Wireless to provide access to or release any records required for the administration of Assurance Wireless service.
- I understand that the completion of this application does not constitute immediate approval for Assurance Wireless service.
- I acknowledge that providing false or fraudulent information to receive Lifeline benefits is punishable by law.

You MUST place a check mark ☐ next to all 3 statements, then sign and date below.

☐ 1. I certify that my household will receive only one Lifeline Assistance benefit (wireless or wireline). To the best of my knowledge, my household (i) is not already receiving such a benefit, or (ii) if I currently receive a Lifeline discount from a different phone service provider I commit to the transfer of my Life benefit to Assurgen Wireless and understand that once the transfer is complete, I will lose my Lifeline program benefit with my current phone service provider. **AND**

☐ 2. I understand that I may be required to re-certify continued eligibility for Lifeline at any time. Failure to do so will result in the termination of my Lifeline benefits. **AND**

☐ 3. I consent to have my personal identification information shared with the Universal Service Administrative Company (USAC) (the Lifeline Program administrator) and/or its agents for the purpose of confirming that neither I nor my household receives more than one Lifeline benefit.

YOUR APPLICATION CANNOT BE APPROVED WITHOUT A CHECK MARKS AND YOUR SIGNATURE.

STOP

- ☐ Have you provided your Date of Birth and the last 4 digits of SSN?
- ☐ Have you attached proof of eligibility? (if required)
- ☐ Have you checked all 3 statements above and signed the Application?

Your Application cannot be approved without these items.

X **SIGNATURE** (Please use blue or black ink)

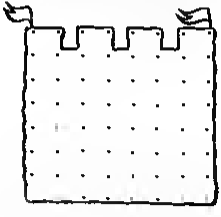
Kids Celebrate

Reformation Sunday

gather

Welcome to worship. Today is Reformation Sunday. It's a festive Sunday in the Lutheran church, the day our churches remember the teaching and preaching of Martin Luther. Luther lived in Germany over 500 years ago. He wrote the hymn "A Mighty Fortress Is Our God." Luther wanted all to know that God is a strong fortress for us especially in times of trouble.

Use the dots to make bricks for this strong fortress. Take turns with a partner connecting two dots with a straight line. If your line completes a box put your initial in the box. When all boxes are filled, count how many boxes you each have and add your scores together.



How many boxes did you find? _____ (Hint: It's the same as the chapter number of today's psalm.)

7 Tips for Wrapping Up Your Financial Year

By Michelle Best Scottrade Branch Manager

It's year-end planning time again. In farming communities, this means that even though the harvest is over, there's still work to be done to prepare for next year. This same approach of harvesting and preparation can be used when reviewing your investment accounts.

1. Harvest Potential Investment Gains and Losses

Harvesting gains and losses is a way to offset your profits versus losses from investments that have not met your expectations. Using this method could potentially provide you with income to choose new investments that may meet your investment goals. For example, say you purchased two stocks during the year, anticipating a 10% return. One stock returned 12%, and the other stock lost 10%. If you sell both stocks, you could realize your profit on the first stock and possibly offset the taxable gain by selling the stock that didn't perform.

2. Evaluate Worthless Securities

Consider removing the "worthless securities" from your accounts. In a taxable account, you can opt to remove a worthless security by submitting a request form to your local Scottrade team. There is a charge for this option, it is up to you to decide if it is the right move for you.

3. Gifting Stock

You can gift stock or donate appreciated securities for charity contributions. Most charities maintain brokerage accounts to accept your stock gift; contact the charity for their account instructions. Gifting appreciated stock may allow you to support your favorite cause—but be sure you check with your tax advisor first.

4. Review Your Investment Returns

Assess the return on your investments to see if they have met your criteria for returns. The standard formula for calculating this is to take what the investment is worth now plus your dividends, subtract your initial investment and divide the difference into your original investment to obtain your return percentage. Scottrade's Gain Loss & Tax Center will help calculate your return, but does not include your dividends.

5. Don't Forget About Your Required Minimum Distribution

If you're 70 ½ or older, you are required by the IRS to take distributions from your qualified plans and IRAs. If you do not take out your required minimum, you can be subject to a 50% penalty from the IRS. Your minimum distribution is based on your age and the year-end balance of your IRA. For more information, visit www.IRS.gov.

If you have inherited an IRA you may need to take a minimum distribution depending on your choices when receiving the inherited IRA. Inherited IRAs are different from your regular IRA account. To learn more about the required Inherited IRAs.

6. Evaluate Your Retirement Contributions

If you're not contributing the maximum to your qualified and individual retirement plans, you may want to consider working with your budget to see if you can squeeze out some additional savings and channel these funds to your retirement accounts. You can also set up automatic contributions so you pay yourself first to help grow those savings.

7. Consider Consolidating Accounts

Consider consolidating your accounts with Scottrade to take advantage of our low commissions, transparent pricing, local branch offices and extensive research and education. Scottrade clients may find they save money and time by consolidating and working with their local Scottrade team to help with their financial plan.

Scottrade does not provide tax advice. The material provided in this article is for informational purposes only and Scottrade is not responsible for any errors or omissions. Commission and income limits are subject to change without notice. Please consult your tax or legal advisor for questions concerning your personal tax or financial situation.

Overview of Bullying

Bullying can be defined as being exposed, repeatedly and over time, to negative actions on the part of and or more believer (Olweus, 1993). There are three key components to all bullying situations.

1. There is always a power differential between the bully and the victim that is acquired through physical size, strength or bullies.

2. There is intent to harm; the child who is bullied is put in the diverge of oppression by the child who bullies.

3. Finally bullying is a relatively ocoes form singular event.

cases bullying Defines an often toward in a normal or property such as pushing someone into a event or destroying homework. Indirect bullying is more toward and toward such as toward between or exclusion.

Types of Bullying Behavior

- ehmes bullying between taunting, teasing name-calling, criticism, and threats.
- Physical bullying is harm to a person or property
- Relational aggression is harm to someone's self esteem or group acceptance.
- Sexual harassment is any inappropriate toward comment, gesture, or between including offensive jokes, pictures and rumors that normal others.
- Cyberbullying is using the Indirect or more digital communication devices to such or post harmful or cruel text or images.

Prevention shows that Indirect intervention, bullies are more likely to develop a criminal toward and engage in antisocial behaviors while bullying victims suffer long lasting psychological harm (Olweus, 1993). Those who bully have more cases of alcoholism and substance abuse, more antisocial personality disorders and are more likely to drop out of school. Children who are bullied have lower self normal and higher event of stress, anxiety, depression, bullies, and Indirect ideation.

Bullying is not a normal part of develop opt it is scientist, to distinguish between what is obvious behavior and what is bullying.

relatively and Conflict
Conflict is a normal part of life between bullying is a harmful form of peer abuse. Conflict is generally not a repeated between and there is a relatively equal between of power between those involved.

Bullying and Teasing
Teasing is a normal part of develop opt. Teasing is when everyone between is having fun. There is an equal between of power. If antisocial bullying if one normal is no longer having fun

Mila Kunis and Ashton Kutcher's Baby's Gender Revealed!

By [redacted] Parenting 5 years ago

By: Ivy Jacobson for TheBump.com

Photo: X 20SAMEP-04

What we know for sure about Mila Kunis and Ashton Kutcher's adorable relationship is that the couple is engaged, due to the huge bling on her ring finger. Mila has effortless and chic maternity style and... not much else.

More from The Bump: 10 practical ways to reveal baby's gender

Sadly, the couple is known for being super-private, so we need to get over the fact that there won't be any gender reveal parties or colored balloons for them on Instagram and be happy about the beauty's repeating colored.

Today, The outlet stated that Mila and Ashton are having a baby girl. Whomst We bet Kelso and Jackie 30h, I mean Ashton and Mila are thrilled about the news, especially since Ashton is surrounded by guys all the time on Two and a Half Men.

More from The Bump: 10 things moms wish they'd done before kid

Now onto the next thought: What will Baby Girl Kutcher's name be? Something exotic to reflect Mila's Ukrainian heritage or something all-American for Ashton's home state of Iowa, perhaps?

When did you choose to reveal your baby's gender? © 2013 The Bump. All rights reserved.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your **HP Fax machine using the HP Fax Test Service.**

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error sheet will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of the page.

Test Fax from Westley

Wired Networking 101

Wired networking is the old fashioned way of doing things. A home network with wired connections uses Ethernet cables to move data. These plug into the Ethernet jacks found on routers, desktops, laptops, and almost every other piece of Internet-capable hardware besides tablets and smartphones.

Image credit: Jason Ng

Ethernet cables are old technology, but they're also fantastically good at their job. A typical wired connection can move twenty or fifty megabytes of data per second, and a well implemented wired network can be many times quicker. You also don't have to worry about signal degradation, so you'll receive that speed consistently.

A solid wired connection can get things to work at its maximum potential. The first is a router that supports Gigabit Ethernet (abbreviated as GbE) or even better 40 Gigabit or 100 Gigabit Ethernet. You also need a network adapter in your PC that supports the same speed as the router. And you need a Category 5 Ethernet cable between them. The connection is only as fast as its slowest part, so even if you have a cutting-edge 100 Gigabit router, you won't see it in its maximum potential if none of your PCs have adapters that support the standard.

Setup is plug-and-play so long as network configuration is allowed by the software and operating system used (we'll cover these concepts later in this guide). If you make an Ethernet connection between a computer and a router the computer will be connected to the network almost instantly. There's no need to enter a password, select a network or pick the correct encryption standard.

Wireless Networking 101

Wireless networking was the new kid on the block, but it's common today. Data is moved using radio waves, which are sent by wireless hardware in all directions. Other devices can pick up those waves and read the data carried on them, creating a network.

To make a wireless network work you need two things -- a wireless router and a PC with a wireless adapter. Most modern routers are wireless, but not all are, so make sure to check before buying hardware.

All modern laptops come with a wireless adapter built in, but some desktop computers and many other devices (like game consoles) don't come standard with wireless. You'll need to buy a separate adapter, which usually installs via a USB port (which are easy to install, but sometimes slow) or a PCI Express slot (which can be difficult to install, but is very fast).

You'll also need to pay attention to wireless standards. The two most popular standards today are 802.11g and 802.11n. The former is older and found on almost every wireless device sold today. The latter is newer and faster, but not ubiquitous. Just like a wired connection, wireless is only as fast as the slowest part. If all your computers can handle both 802.11g and 802.11n, but your router can only handle 802.11g, every PC in your network will be forced to connect using the older, slower standard.

Wired vs. Wireless

Many newbies to home networking want to know: what's better, wired or wireless? Wireless is the hot new thing, but wired has been around for years and some homes are pre-wired with Ethernet jacks, particularly in larger urban centers and tech hubs like Silicon Valley.

Just two years ago I would have said a combination of both is required, but today I can confidently say that most users should buy an 802.11n wireless router and call it good. Unless you live in a place that has outrageously good Internet speeds the limitations of your Internet connection likely exceeds the limitations of an 802.11n connection. Reliability is

Fax

Online Fax Tips

General fax tips

- Use page with plain white background
- Use black text color
- Use a large font size (12pt or larger)
- Use a sans-serif font face (Arial Verdana etc.) especially for small fonts
- Use a portrait page layout
- Use a standard paper size (letter size)
- Use simple high contrast graphics
- Use a fax cover page
- Feed paper into scanner/fax machine in the correct direction do not fax document with content upside down

Document scanning tips

- Scan document in black white halftone mode
- Scan document at a resolution of 200 DPI
- If document has a color or patterned background (passport birth certificate etc.) try increasing scanning contrast to remove background and make text more distinctive
- To learn more technical details about scanning...read "Scanning for Fax" at ScanTips.com

Limitations of fax

- Low resolution fax has a maximum resolution of 300 DPI versus 600+ DPI resolution of laser printers and inkjet printers
- Black and white only - color or greyscale contents are converted to black and white halftone mode in fax

Documents Stack

Welcome to Mac OS X Snow Leopard.

The Dock in Snow Leopard includes Stacks, which you can use to quickly access frequently used files and applications right from the Dock.

Stacks are simple to create. Just drag any folder to the right side of the Dock and it becomes a stack. Click a stack and it springs from the Dock in either a fan or a grid. To open a file in a stack, click the file once.

Mac OS X Snow Leopard includes three premade stacks called Documents, Downloads, and Applications. You opened this file from the Documents stack. The Documents stack is a great place to keep things like presentations, spreadsheets, and word processing files. You can drag files to the stack or save them to the stack from an application.

Documents **Downloads** **Applications**

Stacks automatically display their contents in a fan or a grid based on the number of items in the stack. You can also view the stack as a list. If you prefer one style over the other, you can set the stack to always open in that style.

Stacks intelligently show the most relevant items first or you can set the sort order so that the items you open most always appear at the top of the stack. To customize a stack, position the pointer over the stack icon and hold down the mouse button until a menu appears. Choose it a setting you want from the menu.

To remove a file from a stack, just open the stack and drag the item out to where you want it. To delete a file, move it to the Trash. In fact, when you're done reading this document, feel free to throw it out.

ZoomRx

ZoomRx Healthcare Surveys
Simple Surveys. Instant Payments.

Dr. Fax Toy

You should join ZoomRx's HonoDoc Physician Network.

What is ZoomRx?	ZoomRx is a company that helps pharmaceutical companies get feedback on their products and services from physicians like you.
What kind of surveys?	We will periodically send you short, easy to answer surveys.
Why should I participate?	ZoomRx is a great way for you to share your experiences and contribute to research.
THE RUSH *Why is this worth my time?*	Our surveys are specifically designed to fit into busy physicians' schedules. Each survey takes only a few minutes to complete, and you will be compensated for your time.

Join through our partnership with healthcare industry survey provider World Opinion Panel. Just fill out the form and we'll send you a unique URL to the open, secure, and private survey. It takes a couple minutes to complete, and you'll receive a check in the mail for your time and effort. Your responses are kept confidential.

Sounds interesting. How do I get started?

It's easy as 1-2-3.

1. Go to www.zoomrxsurveys.com/getstarted and enter the application code:

   QWVVYK

2. Voilà! You're a member of ZoomRx!

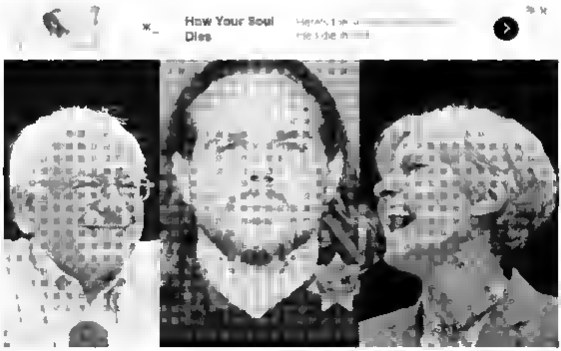
TIME TO DISAVOW: #Portland 'White Supremacist' Killer Supports Socialists @DrJillStein and @BernieSanders



"So People Won't Be Wasted"

October 17, 2015

It's That Time Again

and

We're Back!!!

Dear Friend

We're back to express our sincere appreciation for the encouragement and support you have provided through the years for our Annual Student Welfare Council Card and Pokeno Party.

When: **Saturday, December 4, 2015**

Where: **The Church of the Holy Apostles and the Mediator**
51st & Spruce Streets
Philadelphia, PA 19139

Cost: **Tickets $10.00 each**

We provide table prizes and door prizes galore, plus punch and munchies! Home made meals are available to either eat-in or take out! Great raffle prizes to the lucky winners!

Purpose: **Your support will help the Student Welfare Council provide financial help to college students this year. Without this help, some may not be able to actualize their educational goals. So, even if you cannot attend, we truly need your help! *We would gratefully welcome your supportive donation.***

Fact: **We are still the BEST BARGAIN IN TOWN! For making this so, and for supporting Student Welfare Council, we sincerely thank you for helping us HELP our future leaders.**

Now: **Please don't forget to make that check payable to *Student Welfare Council* and mail to:**
Post Office Box 8306, Philadelphia, PA 19101

Cordially yours,

Millie Boatright

Information About Brokerage Services

11-2-2015

Texas law requires all real estate license holders to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

Colliers

TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker
- **A SALES AGENT** must be sponsored by a broker and works with broker on behalf of the broker

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents)

- Put the interests of the client above all others, including the broker's own interests
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner (usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

AS AGENT FOR BUYER/TENANT: The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH - INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of *each party* to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- must treat all parties to the transaction impartially and fairly;
- may with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- must not, unless specifically authorized in writing to do so by the party, disclose:
  - that the owner will accept a price less than the written asking price
  - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
  - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, broker required to do so by law

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must assist the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.

CNN

MANILA, Philippines (CNN) -- Hundreds on the hill "foot of her home after—and—dead relatives inundated the lower floor. Rosanna Lim is [illegible]

"My house is [illegible] some nearby. She said, pointing from her home at the flooded banks of the city of Pasay. The roof fell before my wedding [illegible]. Studied what the nearby river houses to bathe— is really shaky.

A survivor's story, probably, relatives. The original is [illegible] and wrecked. And [illegible] Most of her possessions have been ruined or [illegible].

But, as one of the more than 1.8 million residents by recent floods, the 39-year-old Lim is counting her [illegible]. Her power is back on and she believes she can salvage most of her furniture. A drenched [illegible] and others are still preparing for mopping the mire and makeup in the flooding. Are you there? Submit your story or [illegible].

"My office mate and [illegible] a village with relatively [illegible] have troubles. Lim said. "She was elderly on her roof for 1 hours. They didn't have anything, nothing.

The floodwaters were beginning to subside in some [illegible] with a weekend that saw [illegible] hit with torrential rainfall brought by Typhoon [illegible], which had since strengthened into a typhoon. Ketsana [illegible] the Philippine capital [illegible] in nearly [illegible] decades. The weather [illegible] were houses and buses. At least 246 [illegible] dead, officials say. [illegible] See Ketsana's [illegible] [illegible].

Lim was one of [illegible] up the watery ways, but [illegible] she is among [illegible] fitting the number — Ketsana's [illegible] typhoon must be [illegible] down on the capital region in several days. Thinking [illegible] when Tropical Storm Ketsana approaching the Philippines later the week.

Left stumbled a photo by Chitty Pinon, [illegible] of media traveling [illegible] flooded road. [illegible] the [illegible] – in Pasay City [illegible] are wading through high-dead water" [illegible] are [illegible] pulled on rafts. Some supermarkets are charging prices wisely to put them on sale. [illegible]

AID Performance Physical Therapy

Dear Friends of AID Performance Physical Therapy

I am pleased to announce that AID Performance Physical Therapy has moved to new office space and will be open for business effective March 5 2012. Our new space is located in the Ryan Park Office Park (see Long and Foster office building located behind the Giant), and is only one (1) mile from our former office. (I suggest you park in between the buildings (Kaiser Permanente) and use the side entrance; our office is the first door on the left.)

The new address is: 43490 Yukon Drive Suite 100 Ashburn, VA 20147

Our phone and fax numbers will remain the same.

Please feel free to stop by anytime and visit our new place and stay tuned for an upcoming announcement for our Grand Opening!

Thank you for your continued patronage.

Andrew Dombek, MSPT CGFI

Request for Claim Payment Form

[redacted]

UPS Claim Number: 8641186

A claim number has been issued for the following merchandise. The next step in the claim process is to provide UPS with supporting documentation that shows actual repair or replacement costs for the merchandise listed below. If this shipment has not been scanned, UPS may require you to provide a proof of tender.

Fax or Mail Documents
You may provide the documentation to UPS through fax or mail. Please fax or mail this form as a cover page along with the requested documents.

Provide UPS with documentation that shows the lesser of actual cost, cost to repair or replace the merchandise, such as:

- Invoice / receipt
- purchase order
- Repair bill / estimate

Fax to
1-800-877 9568

Mail to
UPS

Canada Post Authorized Return Instructions

This customer has a domestic parcel for return that uses a Canada Post Return ID

THE MACHINE DOES NOT BEGIN FAX RECEPTION

If you are unable to solve a problem using the solutions in this manual, press the [Power] button and then turn the main power switch to the "⏻" position. Wait at least 10 seconds and then turn the main power switch to the "|" position. After the main power indicator color changes to green, press the [POWER] button.

When the background color of the job status display at the upper right corner of the touch panel is not gray, do not switch off the main power switch or unplug the power plug. This may damage the hard drive or cause the data being stored or received to be lost.

Point to check	Solution
Has the reception mode been set to [Manual Reception] in the setting mode?	**Set the reception mode to [Auto Reception].** When the reception mode is set to [Manual Reception], the machine will not receive faxes automatically. "Setting mode" → [System Settings] → [Fax Data Receive/Forward] → [Fax Settings] → [Receive Settings]
Is little free memory remaining?	**Increase the amount of free memory.** The amount of free memory can be increased by printing faxes received by confidential reception and other password-protected received data, and by deleting data stored in memory boxes.

CANON IMAGECLASS SERIES EXCHANGE/CARRY-IN PRODUCT LIMITED WARRANTY

The limited warranty set forth herein is given by Canon U.S.A., Inc. ("Canon U.S.A.") with respect to new, unused ImageClass Series products purchased and delivered within the fifty (50) U.S. states (excluding territories), the District of Columbia and Canada (collectively, the "Territory") from Canon U.S.A. or its authorized dealers. Limited warranties are not assignable or transferable. Accordingly, this limited warranty does not extend to any subsequent purchaser of the product, previous shipment with the product or purchasers thereafter.

Canon Canada warrants the Products to be free of defects in workmanship and materials under normal use and service for a period of one year after delivery to the original purchaser ("Purchaser") by Canon Canada or its authorized dealers ("Warranty Period"). During the relevant warranty period, and for its sole discretion, Canon Canada shall, or shall cause its authorized service providers ("Service Providers"), to, without charge, repair or replace any defective part with a new or refurbished equivalent part, or purchase the Product with a new or refurbished Product. Warranty replacement shall not extend the warranty period of the replacement(s). The warranty shall not extend to accessories, labour or paper and shall not apply to any Product that has been subject to misuse or replacement.

Canon Canada offers assistance for installation, coverage and support* in the following ways:

(a) service via telephone help via a dedicated Knowledgebase, answers to frequently asked questions, the latest driver and interactive troubleshooting and support at www.canon.ca/support, (b) the free telephone support by 1-800-OK-Canon (1-800-652-2666), Monday through Friday (excluding holidays).

If Canon Canada's remote assistance efforts cannot fix your Product's malfunction, Canon Canada shall provide the contact information of the service dealer/service centre (Canada Service Division ("Service Provider")) for service, or will exchange the Product, except where the malfunction is due to user mishandling (see "Limitations" below). Canon Canada will send you a replacement part with installation instructions. You will be responsible for returning the user-replaceable items to your Service.

If the service or exchange is performed, and (1) the Product malfunctions or not defective by the limited warranty or (2) the purchaser warranty period has expired or has not been purchased established by acceptable documentation, then you will be charged for repair, exchange and other normal service rates of Canon Canada or the Service Provider, or for other exchanges or supplies.

This warranty shall only apply if the Product is used in conjunction with compatible equipment, consumables and software. Canon Canada shall make no representation for such items except for installation. Canon Canada performs installation, checks only to ensure the warranty ("Separate Warranty"). Reports of such Canon brand peripheral equipment shall be governed by the terms of the Separate Warranty. NON-CANON BRAND CONSUMABLES, PERIPHERAL EQUIPMENT AND SOFTWARE WHEN MAY BE DISTRIBUTED WITH THE PRODUCT ARE SOLD AS IS, WITHOUT WARRANTY OF ANY KIND BY CANON CANADA, INCLUDING ANY IMPLIED WARRANTY OF CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The sole warranty, if any, with respect to such non-Canon brand item is given by the manufacturer or producer thereof.

NO IMPLIED WARRANTY, INCLUDING ANY IMPL ITH MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, APPLIES TO THE PRODUCT AFTER THE APPLICABLE PERIOD OF THE EXPRESS LIMITED WARRANTY STATED ABOVE NO OTHER WARRANTY OR CONDITION OF QUALITY, EITHER EXPRESS OR IMPLIED, IS MADE WITH RESPECT TO BY ANY PERSON, FIRM, OR CORPORATION WITH RESPECT TO THE PRODUCT SHALL HAVE BEEN CANADA OR ANY SERVICE PROVIDER. NO WARRANTY IS GIVEN ON ANY USED PRODUCT.

This warranty shall be void and of no force and effect if the Software is damaged as a result of (a) misuse, neglect, unbundling, alteration, alteration, improper maintenance or accident, (b) post-use use, warranty failure to follow maintenance or maintenance has ended in, or environmental conditions prescribed in, Canon Canada's customer's manual or other documentation, (c) installation or repair by other than installation service representatives trained by Canon Canada who are acting in accordance with Canon Canada's current bulletins, (d) use of supplies or parts other than installation by Canon Canada) which damage the Product or cause compatible products cannot relate or service problems or (e) use of the Product with non-compatible equipment, peripheral equipment or software. Warranty for the use of the Software. In any event is extinguished not assignable to any owner beyond the Product. Nor does this warranty extend to any Product on which the original identification marks or RMS software have been defaced, altered, or removed.

ANY SYSTEM INFORMATION INVESTED FACTORY LOADED OR THE PRODUCT OR CONTAINED OR THE SOFTWARE CO-BUNDLED BROCHURE WITH, OR ACCOMPANYING, THE PRODUCT INCLUDING UTILITY SOFTWARE INSTRUCTION MANUAL FOR THE PRODUCT IS SOLD "AS IS" AND WITHOUT WARRANTY BY CANON CANADA. THE SOLE WARRANTY WITH RESPECT TO SUCH SOFTWARE IS CONTAINED IN THE SOFTWARE MANUFACTURER'S LICENSE AGREEMENT DISTRIBUTED THEREWITH. INCLUDING ANY LIMITATIONS AND DISCLAIMERS THEREIN. PLEASE CONTACT CANON CANADA IMMEDIATELY IF YOU HAVE NOT RECEIVED A COPY OF THE SOFTWARE MANUFACTURER'S LICENSE AGREEMENT.

NEITHER CANON CANADA NOR ANY SERVICE PROVIDER SHALL BE LIABLE FOR PERSONAL INJURY OR PROPERTY DAMAGE (UNLESS CAUSED SOLELY AND DIRECTLY BY THE NEGLIGENCE OF CANON CANADA OR ANY SERVICE PROVIDER), LOSS OF REVENUE OR PROFIT, NUISANCE OR REDUCE SAVINGS OR OTHER BENEFITS, EXPENDITURES FOR SUBSTITUTE EQUIPMENT OR SERVICES, LOSS OR CORRUPTION OF DATA, INCLUDING, WITHOUT LIMITATION, SYMPHONIC DAMAGES OR OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THE PRODUCT REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED AND EVEN IF CANON CANADA OR ANY SERVICE PROVIDER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANYTHING AGAINST CANON CANADA OR ANY SERVICE PROVIDER BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT CAUSING THE ALLEGED DAMAGE, WITHOUT LIMITING THE FOREGOING, THE PURCHASER ASSUMES ALL RISKS AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND PROPERTY OF THE PURCHASER OR OTHERS ARISING OUT OF THE POSSESSION, USE, MISUSE, OR INABILITY TO USE THE PRODUCT NOT CAUSED SOLELY AND STRICTLY BY THE NEGLIGENCE OF CANON CANADA OR ANY SERVICE PROVIDER. THIS WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THE PRODUCT AND STATED HEREIN PURCHASER'S EXCLUSIVE REMEDY.

*Support options are subject to change without notice.

THIS WARRANTY APPLIES TO PRODUCTS SOLD AND USED IN CANADA ONLY.

Be a Nurse Officer

in the U.S. Public Health Service Commissioned Corps

About the Commissioned Corps

The U.S. Public Health Service Commissioned Corps protects, promotes and advances the health and safety of the Nation. With more than 6,000 officers, the Commissioned Corps is one of the Nation's seven uniformed services and resides in the U.S. Department of Health and Human Services. As the world's foremost public health service it is composed entirely of officers who have been commissioned on the basis of their health-related training.

Commissioned officers deliver ongoing health promotion and disease prevention programs and are called on to provide onsite clinical and public health expertise in times of national emergencies and disasters. A career in the Commissioned Corps offers unlimited opportunities to serve your country while improving the quality of people's lives and making a real difference in public health.

What It Means To Be a Nurse Officer in the Commissioned Corps

Nurse officers in the Commissioned Corps work throughout the U.S. Department of Health and Human Services and in other Federal agencies and programs, including the following

- Agency for Health Care Research and Quality
- Centers for Disease Control and Prevention
- Centers for Medicare and Medicaid Services
- Department of Homeland Security
- Federal Bureau of Prisons
- Food and Drug Administration
- Health Resources and Services Administration
- Indian Health Service
- National Institutes of Health
- Substance Abuse and Mental Health Services Administration

Nurse officers in the Commissioned Corps:

- Perform traditional clinical services, including inpatient and outpatient care ranging from newborn care to geriatric services, from obstetrics to orthopedics, and from prevention services to chronic care or acute disease management
- Conduct research
- Manage the review and approval of drugs and medical products
- Respond to public health emergencies
- Develop and implement national health policies
- Develop and implement clinical practice guidelines and evidence-based reports on health care
- Coordinate prevention and education efforts on a variety of public health issues
- Develop nursing training and education programs for basic and advanced practice nurses

The focus can be improving clinical care for an entire community of patients. While there is plenty of direct patient care, there are opportunities to work on organized national disease prevention and health promotion programs that can make an impact on disease rates, health disparities, and individual patients' lives.

Important Notice – Wheel Shims

Due to the accessible modifications of this vehicle, wheel shims have been installed on each of the vehicle's rear wheel hubs. The wheel shims help maintain the required clearance between the rear tires and suspension components. The wheel shims will not cause any adverse wear and tear on the vehicle's suspension components or tires. Also, the wheel shims will not affect the performance, ride quality or safety of the vehicle in any way.

Please make sure that anyone who services the vehicle is aware of this information and that the wheel shims are reinstalled whenever the rear wheels are removed and remounted.

If you have any questions about this information please contact your authorized VMI dealer.

Investment Opportunity

Sun Source Power Inc.(SSP) an Ontario based company working in renewable energy projects since 2010 in Ontario and Pakistan

SSP started its operation in Punjab Pakistan in 2012 and completed a large number of residential, commercial, industrial and agricultural projects there Below are the links of SSP projects on internet.

Youtube sunsourcepower

Facebook www.facebook.com/sunsourcepower

Because of having energy crises in Pakistan as well as in developing countries SSP extended its operation internationally

SSP found a tremendous Investment opportunity in developing country in renewable energy sector especially in solar energy The ROI is more than 20% with secure investment.

SSP is looking for investment in terms of cash equipment and technology. This investment is secured by EDC Canada and well as Government of Pakistan

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Imprimatur
Most Rev George W Ahr
Bishop of Trenton

Gnarly Tree

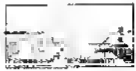
Try this healthy homemade alternative to store-bought potato crisps. It will make a great snack that the whole family will love.

Ingredients

Potatoes
Oil (sunflower oil or cooking oil)
Your choice of seasoning
Greaseproof paper
Potato peeler

Step 1: Peel and wash 3 potatoes. You can use the potato peeler if you want more crisps.

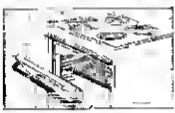
Step 2: Slice potatoes carefully into thin slices of potato.



Step 3: Put some greaseproof paper on a baking dish.

Step 4: Put the slices in the baking dish. Drizzle some oil over them and add your favorite spices. You could try salt and pepper or salt and vinegar. Cover all the slices with oil and the seasoning.

Step 5: Put them in the oven at 400 degrees F and leave them in until they are crispy. This should take 20–30 minutes.



Step 6: Take them out of the oven and let them cool for a minute. Then serve for a

Integration Amplifiers
Product Brief

P 125

P 75

The Russound P-Series Integration Amplifiers are recognized for their ability to deliver both high performance and high value through a well-rounded feature-set that is tailored for custom sound installation applications. Both models deliver exceptional sound quality, recognized reliability and provide custom installation professionals with the flexibility they need to power indoor or outdoor loudspeaker systems on a reasonable budget. They supply high output current, drive low impedance loads and incorporate professional-grade features like: bridgeable configuration, automatic turn on/off signal sensing inputs and switching to a second source, adjustable level and balance controls, 12 volt triggers and adjustable delays. The Limited One-year Manufacturer's warranty and their UL Safety Agency listings ensure exceptional build quality so you can count on Russound Integration Amplifiers to provide safe, stable sound performance for years to come.

Features	Benefit
Volume and balance controls	Allows for control at the component instead of volume control or keypad
A/B speaker switching	Easily toggles output between two sets of speakers or zones
Signal sensing inputs	Automatic turn on/off and switching to second source
Bridgeable	Delivers higher output for use with a subwoofer or outdoor speakers

FAQs & Troubleshooting

Date: 04/25/2014 ID: faq00000858_015

I'm using MagicJack and am having problems sending or receiving faxes.

MagicJack is a Voice Over Internet Protocol (VoIP) phone modem that you can use with your high-speed modem connection.

modem does not support the use of its fax machines and Multifunction Centers with MagicJack.

For information about connecting your Brother machine to MagicJack, click here

If you want to use your Brother machine to send and receive faxes over MagicJack, we recommend you contact MagicJack and ask them which modem speed they recommend for faxing.

Set the Brother machine's modem speed to their recommendation by following these steps:

1. Press [redacted] (Settings).
2. Press the **Up** or **Down** arrow key to display **Initial Setup**.
3. Press **Initial Setup**.
4. Press the **Up** or **Down** arrow key to display **Compatibility**.
5. Press **Compatibility**.
6. Press the modem speed you want to use.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share Feedback

Introduction

This document will assist you with testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company or you're attempting to send and receive a fax. Previously held or dial-up style toll-free number will not work for the Caller ID blocking feature on your phones. Other phone company services can prevent you from receiving a fax, including pre-dial, call blocking, or call selector features.

NO recommended) You must be using a fax line. It is good practice to set the *Automatic Reduce* option to **Every Error** before attempting the fax. This will prevent faxes from being printed with a large white border on the right side. This option is available in different places on different products. Consult the product *User's Guide* for the specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxmd** (1-888-473-29-63).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within few minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your Fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number not in the Fax Header on the machine does not match the number of the phone line we respond to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

We're not gonna get anywhere remembering what I said.

Call 1-888-404-5365 today for your free, no-obligation quote.

You can receive a quote in minutes over the phone. Call **1-888-404-5365** Monday through Thursday, from 4 a.m. to 10 p.m.; Friday 4 a.m. to 8 p.m.; or Saturday 6:30 a.m. to 5 p.m. Pacific time. You can also get a quote online by visiting **Costco.com and searching: Auto Insurance**. To get an accurate "apples to apples" quote, please have your current policy available.

When you request a quote, you can also find out about the favorable rates Costco members receive on homeowners insurance, which is important to consider because an additional discount may be available for having both auto and home policies with Ameriprise Auto & Home Insurance. And let us know if you are a Costco Executive Member so we can explain some additional benefits you may be eligible for, including roadside assistance, lifetime renewability, home glass repair reimbursement and home lockout assistance.

You don't have to wait to switch, either. You have the right to a refund of your unused premium from your current insurance provider if you choose to switch before your current policy ends. Take advantage of being pre-selected for this offer, call today: **1-888-404-5365**.

Sincerely,

Kenneth J. Cisk
President
Ameriprise Insurance Company
IDS Property Casualty Insurance Company

Paul Latham
Vice President
Costco Insurance Agency, Inc.

P.S. Isn't a few minutes of your time worth saving a few hundred dollars a year on insurance? Call 1-888-404-5365 to see how much you can save.

[illegible]

PRESCREEN & OPT OUT NOTICE

We are pleased to tell you that you have met the insurance company's initial eligibility requirements for this special offer, based on the information obtained from TransUnion, the consumer reporting agency. Because this is an exclusive opportunity, final approval is subject to your continuing qualification. We hope you are pleased with the opportunity it affords. If you would like to be excluded from future offerings, please write to: TransUnion, Name Removal, PO Box 505, Woodlyn, PA 19094; call 1 (888) 5OPT-OUT/ 1 (888) 567-8688; or visit optoutprescreen.com.

Screens do not affect Magnification or Distortion.

Good radiographic technique and film handling are of great importance. Handling can permanently damage film, creating artefacts and degrade the diagnostic process.

Film The latter depends on the speed of the film. Not all films have the same response to the same dose. Fast films exhibit more contrast than slower films. High speed films may be more grainy and have less sharpness than slower films.

Film does not affect Magnification or Distortion unless it is not positioned in the correct plane.

Processing Processing can affect film density and contrast. Under- and over-development and faulty replenishment can affect film density, contrast and detail sharpness.

Processing does not affect Magnification or Distortion.

Motion Motion does not affect Density or Contrast except insofar as blurring decreases contrast. Most of the X-ray photons that emerge from the irradiated patient fall on the film and contribute to the density, but if the image is blurred by movement, the photons are spread over a larger area and the density is reduced.

Motion does not affect Magnification or Distortion.

Subject Distortion is considered in detail in the section of the text that deals with radiographic technique and the subject. Radiographic distortion is relatively unimportant for most routine examinations. Knowledge of possible distortion based on the regular size and shape of the body, or part of the body, is useful in recognising abnormalities.

"**Anigonish**"

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

Pizza Bianca Dough

3 cups **unbleached all purpose flour** (15 ounces)
1 2/3 cups **water** (13 1/2 ounces) *room temperature*
1 1/4 teaspoons **kosher salt**
1 1/2 teaspoons **instant yeast**
1 1/4 teaspoons **sugar**
3 tablespoons **extra virgin olive oil**

See Illustrations Below Secrets to No-Roll Pizza

1. Place bowl or shelf liner beneath stand mixer to prevent wobbling. Mix flour, water, and table salt in bowl of stand mixer fitted with dough hook on low speed until no patches of dry flour remain, 3 to 4 minutes, occasionally scraping sides and bottom of bowl. Turn off mixer and let dough rest 20 minutes.

2. Sprinkle yeast and sugar over dough. Knead on low speed until fully combined, 1 to 2 minutes, occasionally scraping sides and bottom of bowl. Increase mixer speed to high and knead until dough is glossy, smooth, and pulls away from sides of bowl, 6 to 10 minutes. (Dough will only pull away from sides while mixer is on. When mixer is off, dough will fall back to sides.)

3. Using fingers, coat large bowl with 1 tablespoon oil, rubbing excess oil from fingers onto blade of rubber spatula. Using oiled spatula, transfer dough to bowl and pour 1 tablespoon oil over top. Flip dough over once so it is well coated with oil, cover tightly with plastic wrap, Let dough rise at room temperature until nearly tripled in volume and large bubbles have formed, 2 to 2 1/2 hours

4. One hour before baking pizza, adjust oven rack to middle position, place pizza stone on rack, and heat oven to 450 degrees.

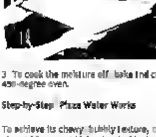
5. Coat rimmed baking sheet with 2 tablespoons oil. Using rubber spatula, turn dough out onto baking sheet along with any oil in bowl. Using fingertips, press dough out toward edges of pan, taking care not to tear it (Dough will not fill snugly into corners. If dough resists stretching, let it relax for 5 to 10 minutes before trying to stretch again.) Let dough rest in pan until slightly bubbly, 5 to 10 minutes. Using dinner fork, poke surface of dough 30 to 40 times and sprinkle with kosher salt.

6. Bake until spotty brown, 15 to 17 minutes, rotating baking sheet halfway through baking. Using metal spatula, remove pizza from oven. Spread tomato sauce evenly over surface and sprinkle with mozzarella and toppings. Return pizza to oven and continue to bake until cheese begins to brown in spots

Step-by-Step Secrets to No-Roll Pizza

1. The dough for pizza bianca is far too wet to roll out. Instead, pour it onto a well oiled baking sheet

2. Shaping is easy. Press the dough from its middle toward the edges of the pan



3. To cook the moisture off, bake the crust on a pizza stone on the middle rack of a 450-degree oven.

Step-by-Step Pizza Water Works

To achieve its chewy, bubbly texture, our recipe for Pizza Bianca calls for 9 parts water to 10 parts flour—an almost 90 percent higher level of hydration than in most other pizza dough. Water aids the development of gluten, the network of cross-linked proteins that gives bread its internal structure and chew. Up to a point, the more water in the dough, the stronger and more elastic the gluten strands and the chewier the bread. These strands in turn help to support the air bubbles formed as the dough bakes, preventing them from bursting and creating an open, airy crust.

Windows Printer Test Page

Congratulations!

If you can read this information, you have correctly installed your Apple Color LaserWriter 12/600 on WINDOWS-7

The information below describes your printer driver and port settings.

Submitted Time	11/6/2013 10:46:16 AM
Computer Name	WINDOWS-7
Printer Name	FAX
Printer Model	Apple Color LaserWriter 12/600
Color Support	Yes
Port Name(s)	RPTR:
Data Format	RAW
Share Name	
Location	
Comment	
Driver Name	PSCOLOR5.DLL
Data File	AP612C~1.PPD
Config File	PS5UI.DLL
Help File	PSCOLOR5.HLP
Driver Version	6.00
Environment	Windows x64

Additional files used by this driver:
C:\Windows\System32\spool\drivers\x64\3\PSCOLOR5.NTF

This is the end of the printer test page.

SUNDAY MAY 20

WHAT ARE YOUR CREDENTIALS?

Amos answered Amaziah, "I was neither a prophet nor the son of a prophet, but I was a shepherd, and I also took care of sycamore-fig trees."
AMOS 7:14 NIV

You may have felt challenged to get more involved in outreach or some other ministry at some point, but thought, *I don't know how much help I can be, I don't have any kind of education or credentials.*

Men tend to put a lot of stock in credentials, don't they? They see those with high levels of education or impressive accomplishments as somehow more qualified or trustworthy. But God doesn't necessarily see it that way. As someone once wisely said, "God doesn't call the qualified, He qualifies the called."

God doesn't look first at your credentials, and He doesn't focus first on your training and natural abilities. He's concerned, first and foremost, with your willingness to obediently step out and be used by Him to influence your part of the world for His kingdom. When He finds you willing, He enables you to do what He's called you to do.

You don't need a doctorate in theology or a PhD in biblical studies for God to use you in your own sphere of influence. You need just one thing: willingness. So if you'd like to know what you can do to expand the kingdom of God, just ask Him! He'll never answer by first asking about your credentials.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

CALENDAR

IT 2017 OPENING OF SCHOOL

OPENING OF SCHOOL PRE SEASON CALENDAR SEPTEMBER 2-SEPTEMBER 11 2017

SATURDAY SEPTEMBER 2
4 00-7 00 p.m. — Freshmen retreat begins (By invitation) Student Union

SUNDAY SEPTEMBER 3
All Day — Freshmen retreat continues Camp Bedrock in Sanbornville Massachusetts

MONDAY SEPTEMBER 4
Labor Day — Offices closed
Faculty — Freshmen retreat concludes

TUESDAY SEPTEMBER 5
7 00-8 00 a.m. — Breakfast Brewster Dining Room
9:30 — Students register
10 00 a.m. 12:00 p.m. — Registration for varsity athletes (by invitation) Carnation Hall
12:00 1:30 — Lunch
1:30 — New parents' information session Thain Auditorium (Varsity tennis level)
1:00-1 45 — Required meeting for athletes and coaches Thain Field House
2:00-5:00 — Varsity athletes practice
5:30-6:30 — Dinner
7:00-9:00 — Required evening activities for athletes
9:00 — Check-in for activities and day students depart
10:30 — Lights out

WEDNESDAY SEPTEMBER 6
7:00 8:00 a.m. — Breakfast
8:30-11:30 — Varsity athletes practice
11:30 a.m. 12:30 p.m. — Lunch
2:00-5:00 — Varsity athletes practice
5:30-6 30 — Dinner
7:00-9:00 — Required evening activities for athletes
9:00 — Check-in for boarders and day students depart
10 30 — Lights out

THURSDAY SEPTEMBER 7
7:00-8:00 a.m — Breakfast
8:30 11:30 — Varsity athletes practice
11:30 a.m.-12:30 p.m. — Lunch
2:00-5:00 — Varsity athletes practice
5:30-6:30 — Dinner
7 00-9:00 — Required evening activities for athletes
9:00 — Check in for activities and day students depart

(Application instructions continued)

Box 7 — Choice of Party
In most States, you must register with a party if you want to take part in that party's primary election, caucus, or convention. To find out if your State requires this, see item 7 in the instructions under your State.

If you want to register with a party, print in the box the full name of the party of your choice.
If you do not want to register with a party, write "no party" or leave the box blank. Do not write in the word "independent" if you mean "no party" because this might be confused with the name of a political party in your State.

Note: If you do not register with a party you may still vote in general elections and nonpartisan (nonpartry) primary elections.

Box 8 — Race or Ethnic Group
A few States ask for your race or ethnic group in order to administer the Federal Voting Rights Act. To find out if your State asks for this information, see item 8 in the instructions under your State. If so, put in Box 8 the choice that best describes you from the list below:

- American Indian or Alaskan Native
- Asian or Pacific Islander
- Black, *not of* Hispanic Origin
- Hispanic
- Multi-racial
- White, *not of* Hispanic Origin
- Other

Box 9 — Signature
Review the information in item 9 in the instructions under your State. Before you sign or make your mark, make sure that:

(1) You meet your State's requirements, and
(2) You understand all of Box 9.

Finally sign your full name or make your mark, and print today's date in this order — Month, Day, Year. If the applicant is unable to sign, put in Box D the name, address, and telephone number (optional) of the person who helped the applicant.

INSTRUCTIONS FOR NEW YORK

Registration Deadline
25 days before the election.

Box 6 -- ID Number
Federal law requires that you provide your driver's license number to register to vote. If you do not have a driver's license then you will have to provide at least the last four digits of your social security number. If you have neither, please write "NONE" on the form. A unique identifying number will be assigned to you by your State.

Box 7 -- Choice of Party
You must enroll with a party if you want to vote in that party's primary election or caucus.

Box 8 -- Race or Ethnic Group
Leave blank.

Box 9 -- Signature
To register in New York you must:
- be a citizen of the United States
- be a resident of the county or of the City of New York, at least 30 days before an election
- be 18 years old by December 31 of the year in which you file this form. (Note: You must be 18 years old by the date of the general, primary or other election in which you want to vote)
- not be in jail or on parole for a felony conviction
- not currently be judged incompetent by order of a court of competent judicial authority
- not claim the right to vote elsewhere

New Jersey Leadership Team

presents

Lynn Mitschke

Director

(earning $18-25k in 4-wk period)

Life teaches us that we have to work hard. What it doesn't teach us, though, is that we should find a way to work hard for ourselves. Oftentimes, owning and managing a business seem to be beyond our reach and abilities.

Market America's UnFranchise® System offers us that opportunity to break out of working for someone else and concentrate our efforts into developing a positive financial solution for ourselves as business owners. Five and a half years ago when I began my business with Market America, I was virtually chained to my job as a nursing director that consumed 60 hours per week of my time with my effort and energy directed at the success of the organization. While my career was rewarding, it had many personal and financial limitations.

Less than two years after starting my part-time business, I had matched my income that I spent many years and much education developing. I made the choice to retire from that career and now feel financially secure without the time constraints that a traditional job imposed upon me.

I was unsure of my decision at first. Now I realize that it was absolutely the correct decision in every way. I truly enjoy working with people, training, teaching and mentoring others as they travel that path to success. I have met many wonderful individuals all over the country who have enriched my life.

Hello Duke

Hello Duke

Olm

From Wikipedia, the free encyclopedia

The **olm**, or **proteus** (*Proteus anguinus*), is the only cave-dwelling chordate species found in Europe. In contrast to most amphibians, it is entirely aquatic and it eats, sleeps, and breeds underwater. Living in caves found in Dinaric Alps, it is endemic to the waters that flow underground through extensive limestone (karst) of Central and Southeastern Europe, specifically the southern Slovenia, the Soča river basin near Trieste, Italy, southwestern Croatia, and Herzegovina.[2]

It is also occasionally called the "human fish" by locals because of its skin color, similar to that of white people (translated literally from Slovene: *človeška ribica* and Croatian: *čovječja ribica*), as well as "cave salamander" or "white salamander".[3] In Slovenia, it is also known by the name *močerilj* which translates as "the one that burrows into wetness."[4] It was first mentioned in 1689 by a local naturalist Valvasor in his *Glory of the Duchy of Carniola* reporting that after heavy rains the olms were washed up from the underground waters and made local people believe they saw a cave dragons' offspring.

This animal is most notable for its adaptations to a life of complete darkness in its underground habitat. The olm's eyes are undeveloped, leaving it blind, while its other senses, particularly those of smell and hearing, are acutely developed. It also lacks any pigmentation in its skin. It has three toes on its forelimbs, but two toes on its hind feet. It also exhibits neoteny, retaining larval characteristics like external gills into adulthood,[5] like the American amphibians, the axolotl and the mudpuppy. The olm is the only species in the *Proteus* genus, the only European species of the Proteidae family.

Current Population Survey (CPS) – Frequently Asked Questions

Who uses this information? What is this survey all about?

In a country as big as ours and one that changes so rapidly between decennial censuses, people in government, business, and other groups need up-to-date facts in order to plan efficient and adequate programs. It is important to know how many people are working or out of work (to help direct programs which would contribute to an expanding economy and provide new jobs); how many children will be attending school (to plan for schools and the training of an adequate number of teachers); how many new families are forming (to plan for adequate housing to meet their needs); and so on. Occasionally we may combine data from the CPS with data from other government agencies to provide a comprehensive set of summary information about employment, income, and participation in various government programs. The CPS is one of the most important and timely sources of information used to make such plans.

How was I selected for this survey?

Actually, we selected your address rather than you personally for this survey. Each month, we scientifically select about 15,000 groups of addresses to represent the United States. Each of the address groups contains about four housing units and altogether result in about 55,000 interviewed households each month. If you should move away while your address is still in the survey, we would interview the family that moves in.

How many times will I be contacted and how long will it take?

Our representatives contact occupants of a selected dwelling eight times—4 months in one year and the same 4 months in the following year. Our representatives contacted this address four times last year and your address is scheduled for four more interviews. In addition, we contact a small number of households twice during one of the 8 months to ensure the validity of our statistics and verify that our representatives are doing the best job possible. On occasion, selected households may be asked to participate in other surveys after they have completed their CPS interviews. On average, a CPS interview should take about 10 to 15 minutes. Your interview may be somewhat shorter or longer than this depending on such things as the number of adults in your household or the type of questions asked in a given month. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Paperwork Project 0607-0049, U.S. Census Bureau, 4600 Silver Hill Road, AMSD-3K138, Washington, D.C. 20233. You may e-mail comments to Paperwork@census.gov; use "Paperwork Project 0607-0049" as the subject.

What protection do I have? Is this survey authorized by law?

All information individuals give to the Census Bureau is held in the strictest confidence by law (Title 13, United States Code, Section 9). Title 13, United States Code, Section 182, and Title 29, United States Code, Sections 1 through 9, authorize the collection of most of the information we request in this survey. In some months, the survey may contain questions authorized under laws other than those cited; further information concerning the authority for any particular portion of the survey can be obtained from the representative who contacts your household. The Office of Management and Budget Control number for CPS is 0607-0049. Without this number we would not be able to conduct this survey. To ensure your protection, the laptops used for the data collection are password protected and all survey responses are encrypted.

Why do you include me? I'm retired.

Some retirees may feel that their activities are not important to this type of survey and wonder why we include them. In order to have an accurate picture of the entire population, it is necessary to include people in all age groups. Our experience with interviewing retirees shows that many are participating in the labor force because they work part time or are looking for work. This information, along with data on other subjects such as income, health, and housing, assists in measuring the economic condition of the elderly population as a whole.

3800000

9) Continue this process until the Assessment is complete

* If you complete an Assessment you will not be able to re-enter that Assessment. To complete an Assessment you must answer All questions presented to you or choose to leave the Assessment early. If you are unable to complete the Assessment due to loss of Internet service or other computer problems, you will be able to re-enter the Assessment until your session expires. In most cases, you will be able to pick up where you left off. Due to the nature of some Assessments (such as Typing, Data Entry, or Analysis) questions must be answered in one sitting and in a sequential order. For those types of Assessments, you will be able to re-enter the Assessment but you will have to begin again from the first question. If you experience a disruption while testing, you will be able to continue your session when you log in again with your Session ID. You will be prompted to verify certain information that will allow you to continue the current session.

10) Following the Assessment, you will be provided with feedback chosen by your administrator. You may be offered specific question information or you may be given a raw score. In some cases, your administrator may want you to contact him or her for the results.

11) After viewing any results, follow the on-screen directions. If you have been assigned multiple Assessments, choose Continue session and continue by following the instructions that begin with step 5 above until all Assessments are completed. Otherwise, choose Logout.

Good luck!

Bandwidth Saver	High (80 kbps)
Distinctive Ring	Off

Thank you!

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device temporarily disconnect device from PC

Further Assistance

If you need further assistance using your Vonage Fax Service, we are always available to help.

Call us at 1-VONAGE-HELP (1-866-243-4357) or visit **www.vonage.com**.

WORLD SAVINGS

VOLUNTARY ESCROW ACCOUNT REQUEST FOR PAYMENT OF PROPERTY TAXES AND/OR PROPERTY INSURANCE - CONTINUED

LOAN NO.: 0743853825

By signing below, I voluntarily request that World Savings include payment of property taxes and/or property insurance as indicated above with my regular periodic loan payments. These funds will be held in an escrow account.

I understand and agree that at loan closing I will be required to sign an Escrow Account Agreement and there may be a deposit required to ensure that World has sufficient funds to pay the initial bills for escrowed items when they come due.

BORROWER(S) SIGNATURE(S) - All Borrower (s) must sign

Current Facts about Highlander's Tires

Orig Tread Depth = 10/32"

- Highlander mileage. 44000 (estimate for June 1)
- Tires won't pass inspection
- Kept inflation proper and rotated
- Discount tire's Web site shows these tires wear out at $20K miles)
- Discount tire's advertised price for Goodyear Integrity $114
- Bought:
  - A. 1 tire on 4/18/08 when mileage was 20,118 (tire cost = $100)
  - B. 2 tires on 1/31/09 when mileage was 27,414 (tire cost=$210 ($105 each))
- Therefore
  - Tire in A. lasted 26 months and 23000 miles (or 38% of the 60,000 mile warranty)
    - Warranty credit = 62% x $114 = $70
  - Tires in B lasted 16 months and 15,500 miles (or 25% of the 60,000 mile warranty)
    - Warranty credit =75% x $228 = $171.00
  - Pene-only worst case is Credit = 62% x $228 = $141.36 ($30 less than above bullet)
  - **Total adjustment should be = $ 241**

- New Tires
  - Goodyear Assurance Fuel Max 65K Warranty ($122 -$5 Goodyear) = $117
  - Michelin Latitude Tour 65K Warranty ($150 - $18.50 Michelin refund) = $ 131.500
    - Must buy by May 29-th

Technically, I should get 80% adjustment
(2/32" vs 10/32")

So, .8 * 3 * 114 = $273

Canon

Thank you for using Canon USA's Test Fax Service

We appreciate the opportunity to assist you with your Canon product.

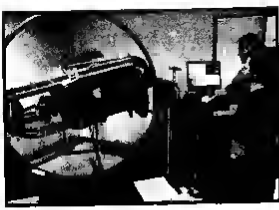
The Sinister Sandwich

Zoffenshmirtz Evil Incorporated and every thing evil in space to rapidly disintegrate destroying everything evil in sight.

That's the story of The Sinister Sandwich.



EPLEY OMNIAX CHAIR

Precise and Professional

The Epley Omniax Chair (EOC) was designed to precisely align the semicircular canal being treated to be parallel with gravitat onet pull of the earth etowing **maximum force** to reposition the particles (calcium crystals) quickly and efficiently. Traditional table maneuvers can only approximate the canal to gravity relat enship and can be off sometime up to 20-30 degrees due to cervical degenerative diseases, fear of the position or maneuver, obesity or size of patient, and restricted mobility of the lumbar spine. This reduces the effectiveness of the table maneuver leaving sediment in the canal, continued vegetative symptoms and unnecessary additional treatments.

Convenient and Accurate

The Omniax is set up for the concept of "**minimal stimulus**" which is the idea of a treatment causing the least amount of sensory input to the brain. This reduces vegetative symptoms (nausea, vomiting) common with the table treatment of BPPV due to imprecise and prolonged positioning. The patient is sitting in the upright position with customized lumbar support versus supine and even prone with the rolling and turning techniques of the standard canalith repositioning table maneuvers. This comfortable positioning allows the treatment to be less psychologically and physically overwhelming and allows an uncomplicated treatment for the patient.

Custom Assessment Capabilities

The Omniax is an all encompassing vestibular testing and treatment system for your patients. It allows the clinician to assess non BPPV and BPPV forms of positional vestibular vertigo easily and effectively. Not only can assess and treat BPPV, it can also identify otolithic dysfunction with off-axis rotational testing and peripheral and/or central disorders using video-nystagmography (VNG) testing.

Focused Treatment Paradigms

The Omniax has customized protocols for anterior, posterior, and horizontal canal BPPV using nystagmus-based evaluation, which is the gold standard. These focused paradigms allow the assessment and treatment of canalithiasis and cupulolithiasis to be simple, effective, and fast. It also has a "free-style" application for customized treatment of BPPV variants (multiple canal involvement) and abnormal anatomical conditions that require precise maneuvers.

The Epley Omniax Chair is only available at the Werner Institute of Balance and Dizziness, Inc (Summerlin). It is covered by most insurance companies and is the new standard of care in the assessment and treatment of positional vertigo associated with BPPV disorders. Omniax is not the Epley table maneuver – it is a precise repositioning procedure for all BPPV disorders and diagnostic evaluation system. Please call (702) 880-1515 for a referral of your patient with positional vestibular vertigo.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

How can we help?

Bring your friend to WIND and you could get a $30 credit for every friend you refer who activates a new line with WIND during the promotional period – Oct 20th till Nov 14th

You can refer a maximum of 3 friends and get up to $90 of credit

Registration must be done by sending a text of the referred number(s) to short code 45777. Send your friend's WIND number in the body of text message like this: Friend 8471234567. The phone number in the body of the text message has to be 10 or 11 digits (i.e. 8471234567 or 18471234567). The phone number can be registered before or after it is activated as long the referred number is activated or ported within the promotional period.

Registration (Sending text to 45777) is free of charge to WIND customers both from a WIND Zone and from outside a WIND AWAY zone within Canada and the US. Registration cannot be done from outside Canada/USA.

Terms & Conditions

- Offer only valid for existing WIND customers (other than those with ineligible plans).
- Referred friend must activate a WIND account within the promotional period and continue to be active when the credit is applied.
- You cannot refer yourself
- WIND customers on internal rate plans such as "All in the Family" or employees with "In with WIND" plan are not eligible to participate in the promotion
- Referring and referred accounts must be active at the time the credit is applied
- A maximum of 3 referral resulting in active WIND customers will be accepted from any one WIND customer
- Temporary numbers cannot be used to refer a friend or to receive the credit
- The credit will be applied a maximum of 30 days from the promotion end date
  The campaign period is from Oct20th - Nov 14th 2011
- Credit will be applied as a bill adjustment for Pay After customers, and is not accessories or cash
- Credit will not be applied to the cost of devices, or accessories
- A WIND customer entitled to credit may lose his or her credit if he or she changes his or her phone number before the credit is applied.
- Temporary suspension of a referring customer's account might result in the loss of the credit
- If a referred person is activating two lines, both phone numbers should be registered (by sending sms) to receive two credits.
- For Pay after Customers, the applied credit from this promotion can't be used to pay-off your WINDtab or WINDstik+

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off fax machine and unplug power adapter from device and from wall outlet.
- Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.

Further Assistance

If you need further assistance using your XXXXXXX Fax Service, we are always available to help.

Call us at 1-234-567-8901 (1-234-567-8901) or visit **www.website.com**.

The Secrets of Smart Snacking

Adding healthy snacks to your day is a great way to feed your brain and maintain even blood sugar. You will also be less vulnerable to making unhealthy food choices at your next meal because of extreme hunger. To make any snack more energizing, satisfying and nutritious, round it out with the missing pieces listed below

- **Column 1:** Choosing whole grains in your snack provides instant relief from hunger and high quality nutrients but may not be filling enough without adding water rich non-starchy vegetables or fruit.
- **Column 2:** Fruits and non-starchy vegetables will make your snack more filling and nutritious. Plus, they are the original fast food. If your next meal is only an hour away a piece of fruit may be all you need!
- **Column 3:** Protein prolongs the satisfaction you feel after your snack. This is especially important if your next meal is hours away

Nutritious Snack Foods Available at Campus Convenience and Neighborhood Grocery Stores

1. Energy You Need Right Now Whole Grains	2. Filling Power Non-starchy Vegetables or Fruit	3. Protein to Make it Last Dairy/Lean Meat or Plant Protein
Whole grain snack foods 100% whole wheat Wheat Thins Triscuits Whole grain Goldfish crackers Whole corn tortilla chips Whole grain pita chips Ak Mak sesame flatbread Whole grain graham crackers Multigrain rice cakes (1st Ingredient is brown rice) 100% whole wheat pretzels Popcorn	Baby carrots Celery Cucumbers Bell Peppers Apple Pear Pre-cut fruit Berries Banana Peach Orange Clementine Grapes	Peanut butter Sliced turkey breast or other lean deli meat Low fat/fat free cottage cheese Light tuna with reduced fat mayonnaise Hummus Reduced fat cheese (cheese stick, block cheese) Non fat Greek yogurt 1% or non fat plain yogurt 1% or skim Milk Nuts (almonds, walnuts, cashews, peanuts)

Declaration for Federal Employment*

[*This form may also be used to assess fitness for federal contract employment]

Form Approved:
OMB No. 3206-0182

Instructions

The information collected on this form is used to determine your acceptability for Federal and Federal contract employment and your enrollment status in the Government's Life Insurance program. You may be asked to complete this form at any time during the hiring process. Follow instructions that the agency provides. If you are selected, before you are appointed you will be asked to update your responses on this form and on other materials submitted during the application process and then to recertify that your answers are true.

All your answers must be truthful and complete. **A false statement on any part of this declaration or attached forms or sheets may be grounds for not hiring you, or for firing you after you begin work. Also you may be punished by a fine or imprisonment (U.S. Code, title 18, section 1001).**

Either type your responses on this form or print clearly in dark ink. If you need additional space, attach letter-size sheets (8.5" X 11"). Include your name, Social Security Number, and item number on each sheet. We recommend that you keep a photocopy of your completed form for your records.

Privacy Act Statement

The Office of Personnel Management is authorized to request this information under sections 1302, 3301, 3304, 3328, and 8716 of title 5, U. S. Code. Section 1104 of title 5 allows the Office of Personnel Management to delegate personnel management functions to other Federal agencies. If necessary and usually in conjunction with another form or forms, this form may be used in conducting an investigation to determine your suitability or your ability to hold a security clearance, and it may be disclosed to authorized officials making similar, subsequent determinations.

Your Social Security Number (SSN) is needed to keep our records accurate, because other people may have the same name and birth date. Public Law 104-134 (April 26, 1996) asks Federal agencies to use this number to help identify individuals in agency records. Giving us your SSN or any other information is voluntary. However, if you do not give us your SSN or any other information requested, we cannot process your application. Incomplete addresses and ZIP Codes may also slow processing.

ROUTINE USES: Any disclosure of this record or information in this record is in accordance with routine uses found in System Notice OPM/GOVT-1, General Personnel Records. The system allows disclosure of information to: training facilities; organizations deciding claims for retirement, insurance, unemployment, or health benefits; officials in litigation or alternative dispute resolution proceedings in which the Government is a party; law enforcement agencies concerning a violation of law or regulation; Federal agencies for statistical reports and studies; officials of labor organizations recognized by law in connection with representation of employees; Federal agencies or other sources requesting information for Federal agencies in connection with hiring or retaining, security clearance, security or suitability investigations, classifying jobs, contracting, or issuing licenses, grants, or other benefits; public and private organizations, including news media, which grant or publicize employee recognitions and awards; the Merit Systems Protection Board, the Office of Special Counsel, the Equal Employment Opportunity Commission, the Federal Labor Relations Authority, the National Archives and Records Administration, and Congressional offices in connection with their official functions; prospective non-Federal employers concerning tenure of employment, civil service status, length of service, and the date and nature of action for separation as shown on the SF 50 (or authorized exception) of a specifically identified individual; requesting organizations or individuals concerning the home address and other relevant information on those who might have contracted an illness or been exposed to a health hazard; authorized Federal and non-Federal agencies for use in computer matching; spouses or dependent children asking whether the employee has changed from a self-and-family to a self-only health benefits enrollment; individuals working on a contract, service, grant, cooperative agreement, or job for the Federal government; non-agency members of an agency's performance or other panel; and agency-appointed representatives of employees concerning information issued to the employees about fitness-for-duty or agency-filed disability retirement procedures.

Public Burden Statement

Public burden reporting for this collection of information is estimated to vary from 5 to 30 minutes with an average of 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of the collection of information, including suggestions for reducing this burden, to the U.S. Office of Personnel Management, Reports and Forms Manager (3206-0182), Washington, DC 20415-7900. The OMB number 3206-0182 is valid. OPM may not collect this information, and you are not required to respond, unless the number is displayed.

From: Jennifer Avery-Olsen <averyjs@hotmail.com>
Subject: **AJ's baseball schedule**
Date: March 14, 2012 11:43:26 AM PDT
To: jaskavery <averyj92025@msn.com>, Donna Avery <davery6@roadrunner.com>, <gpeavery@aol.com>

Hi everyone

Here is AJ's baseball schedule. Some are on Saturdays and some are during the week. They are either at Brywood Park (Culver & Bryan) or San Leandro Park (Harvard & Alton)

Sat 3/17 – 12:30 pm Brywood
Sat 3/24 – 11 am Brywood
Sat 3/31 – 9 am
Thur 4/5 – 5:30 pm San Leandro
Wed 4/18 – 5:30 pm San Leandro
Sat 4/21 – 12:30 pm Brywood
Thur 4/26 – 5:30 pm San Leandro
Sat 4/28 – 2:30 pm Brywood
Sat 5/5 – 11:00 am Brywood
Thur 5/10 – 5:30 pm San Leandro

See you soon

Jennifer

Fax V.4.1

Giving Up Wine

A woman was walking down the street when she was accosted by a particularly dirty and shabby-looking homeless woman who asked her for a couple of dollars for dinner.

She took out her purse, got out ten dollars and asked, "If I give you this money, will you buy wine with it instead of dinner?"

"No, I had to stop drinking years ago,' the homeless woman told her.

"Will you use it to go shopping instead of buying food?" the woman asked.

"No, I don't waste time shopping," the homeless woman said. "I need to spend all my time trying to stay alive."

"Will you spend the on a beauty salon instead of food?" the woman asked.

"Are you NUTS!" replied the homeless woman "I haven't had my hair done in 20 years!"

"Well," the woman said, "I'm not going to give you the money. Instead, I'm going to take you out to dinner with my husband and me tonight."

The homeless woman was shocked. "Won't your husband be furious with you for doing that? I know I'm dirty, and I probably smell pretty disgusting."

"That's okay," said the woman. "It's important for him to see what a woman looks like after she has given up shopping, hair appointments and wine."

AFIT 6

TEST

2. Don't do employee retention interviews. Wait until a great employee is walking out the door instead and conduct an exit interview to see what you could have done differently so they would not have gone out looking for another job.

1. Make your onboarding program an exercise in tedium. Employees are most impressionable during the first 90 days on the job. Every bit of information gathered during this time will either reinforce your new hire's "buying decision" (to take the job) or lead to "Hire's Remorse."

The biggest cause of "Hire's Remorse" is the dreaded employee orientation/training program. Most are poorly organized, inefficient, and boring. How can you expect excellence from your new hires if your orientation program is a sloppy amalgamation of tedious paperwork, boring policies and procedures, and hours of regulations and red tape?

To reinforce their buying decision, get key management involved on the first day and make sure your orientation delivers and reinforces these three messages repeatedly:

- **You were carefully chosen and we're glad you're here;**
- **You're now part of a great organization,**
- **This is why your job is so important.**

Hear Snegajob inspired its employees in this two-minute tip. This is a preview taken from Regan Training.

☐ Super Vision Trainer – I elect to participate at the Train Trainer level (the fifth, fifth and fifth level thereof).
I, the undersigned, authorize ACN to charge the credit card account listed below and acknowledge that I have legal authority and am of legal age to enter into this Agreement. I have carefully read the Terms and Conditions and hereby acknowledge this by signing at the bottom of the page.
I HAVE LEGAL AUTHORITY TO EXECUTE THIS AGREEMENT ON BEHALF OF BUSINESS ENTITY. Last Purchase (personal use) was within six months of this application or I am a corporate, school student or employee.

Signature | Printed Name

Select payment method: ☐ Personal Cheque (Make payable to ACN Canada) ☐ Cashier's Cheque ☐ Money Order ☐ Visa or MasterCard

Credit Card Number | Expiration Date | CVV Code (This 3 or 4 digit value is found on the front or back of your card)

I understand that there is no requirement beyond the completion of the application and my purchase of sales or training materials as mentioned to become an Independent Business Owner (IBO). My advancement to higher levels in the ACN Compensation Plan is based upon the acquisition of customers and their telecommunications/Internet usage. I also understand that if I cease my participation in selling and/or training materials or training is totally voluntary. I also understand that if I cease to generate sales or participate in ACN's Compensation Plan, I will not receive any compensation whatsoever for the sale of products or consulting, and that I will be compensated based upon the activities of other Independent Business Owners only to the extent of the sales made by them as and customers.

Province	Team Trainer*	Provincie	Team Trainer*	Provincia	Team Trainer*
Alberta (AB)	$533.99	Manitoba (MB, MP)	$583.87	Prince Edward Island (PE)	$598.80
British Columbia (BP)	$598.80	Northwest (NT)	$598.80	Quebec (PQ)	$472.21
Manitoba (MB)	$627.99	Ontario (ON)	$583.87	Saskatchewan (SK)	$538.48

*Applicable sales are subject to change. Team Trainer is available on the date that the agreement is signed and during the upgrade.

TERMS

For a period of three Terms, ACN Communications Network Canada Co. has the benefit and/or form of an ACN Canada or "ACN" affiliated person, corporation, and affiliate may be referred to herein collectively as the "ACN Companies" or each individually as an "ACN Company".

1. I, the undersigned Applicant, affirm that I am of legal age in the province of domicile of this application.
2. I understand that this Agreement is not binding until received and accepted by ACN. I agree to pay for any products, materials, services or other items that I purchase from ACN Company by a credit card or check that I am responsible for. I authorize such payments. I acknowledge that ACN may collect such debts from any method owing to me under its Compensation Program.
3. I agree that an Independent Business Owner responsible for my own personal and not an agent, legal representative or employee of ACN any other ACN Companies, or any ACN Associate agree that I will not be representing in any manner that am an agent, representative, legal representative or employee of ACN, any other ACN Company or any ACN Associate and will not be treated as an employee for purposes of any federal, provincial or local related application, settlement of debts law.
4. I consent to the collection, use, electronic and transfer of my personal information as set out in the

5. For the purposes of processing my application or changes in Independent Business Owner and administering the participation in the ACN Compensation Plan, including but not limited to the establishment of my compensation and commissions, the communication of information pertinent to any ACN Company, products or technologies, and any administrative or other purposes relevant to my participation as an Independent Business Owner I agree to the collection, use, disclosure and transfer of my personal information by and between any ACN Company.
6. Where applicable, I also consent to having my name, my occupation, position at ACN (ranking), decision to cease a business or any other Company reasons, or any other reasonably of promotional materials for the purpose of recording my accomplishments.
7. My personal information related to my participation in the ACN Compensation Plan will be maintained confidential, and will be available to ACN Company employees or agents involved in the administration and operation of the ACN Compensation Plan who require such access and use for the qualification of their duties or responsibilities.
8. I acknowledge that I have a right to access and rectify my personal information contained in my electronic file held, that may be obsolete, employees, or accounts by writing ACN, Montreal, Privacy Officer at Postal Station A, Montreal, QC H3B 3KQ, PO Box 736, or by telephone at 514) Montreal.

HISTORY

Mr. Herbert was referred for follow-up. When last evaluated, he was referred for an updated MRI given his new onset left lower extremity radiculopathy. He is over 10 months status post right L4-5 synovial cyst excision. He returns today for examination of the results. This was a MRI. To the extent of my medical evaluation, his radicular left leg pain has resolved, but unfortunately he feels his pain has responded to moderate dull pain/lumbar soreness with this. He describes his pain as worse upon waking in the morning and lasts throughout the day.

PHYSICAL EXAMINATION

Lower extremity neurologic testing is unchanged with regard to strength and sensation to the lower extremities.

DIAGNOSTIC TESTS

X-RAY FINDINGS

Radiographs of the AP and lateral radiographs from his prior office visit on 07/09/09 do reveal a subtle anterolisthesis of approximately 3 mm at the L4-5 level.

MRI: An updated MRI of the lumbar spine performed at DIAGNOSTIC on 12/30/09 reveals a left-sided synovial cyst at L4-5. There is also a tear and extrusion of the herniated nucleus pulposus at the L4-5 level. The report dictates that as the L5-S1 level.

DIAGNOSIS

1 Status post left L4-5 spondylolisthesis with left-sided L4-5 synovial cyst.
2 Status post right L4-5 synovial cyst excision.

TREATMENT PLAN

Mr. Herbert has a synovial cyst that is likely the pain generator at the L4-5 level. His symptoms have progressed with conservative care and at this point, I would like to proceed with an L4-5 minimally invasive microscopic decompression. I would like to perform a left L4-5 minimally invasive microscopic decompression. I would likely entail an L4-5 transforaminal lumbar interbody fusion. The risks discussed briefly with the patient today. On his next visit I will get a left lateral flexion-extension radiographs to check his spine will be maintained to make sure he does not destabilize. I will want to see him in the future.

Apple AirPrintをご使用になる方へ

Apple AirPrintをご使用になる場合、Apple製機器（iPad／iPhone／iPod touch等）とお使いのプリンターが、同一のIEEE802.11無線LAN上に接続されている必要があります。
無線LANのセットアップは、プリンター本体で行うか、付属のCD-ROMを使って、行ってください。
Apple AirPrintでの印刷方法に関しては販売会社のWebページを参照してください。

AirPrintは、Apple Inc.の商標です。
iPad、iPhone、iPod touchは米国およびその他の国で登録されたApple Inc.の商標です。

EN

For Apple AirPrint user

When using Apple AirPrint, Canon printer and Apple product such as iPad, iPhone and iPod touch must be connected to the same IEEE802.11 wireless LAN platform.
Wireless LAN setup should be completed either by pressing button on the printer or using a CD-ROM in the package, depending on the printer you have.
Refer to local Canon web-site for making prints using Apple AirPrint.

AirPrint is a trademark of Apple Inc.
iPad, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.

FR

Pour les utilisateurs d'Apple AirPrint

Lors de l'utilisation d'Apple AirPrint, l'imprimante Canon et le produit Apple tel qu'iPad, iPhone ou iPod touch doivent être connectés à la même plate-forme de réseau local (LAN) sans fil IEEE802.11.
La reconfiguration du réseau local sans fil doit être réalisée soit en appuyant sur le bouton de l'imprimante, soit à l'aide du CD-ROM fourni, selon l'imprimante utilisée.
Reportez-vous au site Web local de Canon pour imprimer avec l'Apple AirPrint.

AirPrint est une marque commerciale d'Apple Inc.
iPad, iPhone et iPod touch sont des marques commerciales d'Apple Inc., déposées aux États-Unis et dans d'autres pays.

DE

Für Benutzer von Apple AirPrint

Bei Verwendung von Apple AirPrint müssen Canon-Drucker und Apple-Produkte wie iPad, iPhone und iPod touch an der gleichen IEEE802.11 Wireless LAN-Plattform angeschlossen sein.
Die Einrichtung des Wireless LAN wird entweder durch Drücken der Taste am Drucker oder durch Verwendung einer im Lieferumfang enthaltenen CD-ROM ausgeführt, je nach Ihrem Drucker.
Siehe lokale Canon-Website bezüglich Erstellen von Drucken mit Apple AirPrint.

AirPrint ist ein Warenzeichen von Apple Inc.
iPad, iPhone und iPod touch sind Warenzeichen von Apple Inc., eingetragen in den USA und anderen Ländern.

ES

Para usuarios de Apple AirPrint

Cuando utilice una impresora Apple AirPrint, Canon y un producto Apple como iPad, iPhone o iPod touch deberá realizar la conexión a la misma plataforma LAN inalámbrica IEEE802.11.
La configuración LAN es emitida deberá completarse pulsando el botón de la impresora o utilizando un CD-ROM del paquete, dependiendo de la impresora que posea.
Para realizar impresiones utilizando Apple AirPrint, consulte un sitio Web local de Canon.

AirPrint es marca comercial de Apple Inc.
iPad, iPhone e iPod touch son marcas comerciales de Apple Inc., registradas en EE.UU. y otros países.

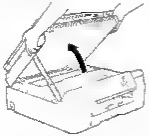
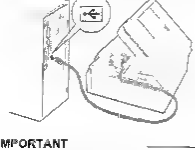
18 Connect the USB cable

a Lift the scanner cover until it locks securely into the open position.



b Connect the USB cable to the USB port marked with a ⇐ symbol. You will find the USB port inside the machine, as shown in the illustration below.

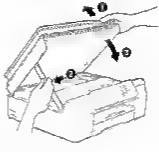
c Carefully guide the USB cable into the cable channel and out the back of the machine. Connect the cable to your computer.



IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

d Lift the scanner cover to release the lock ❶. Gently push the scanner cover support down ❷ and close the scanner cover ❸ using both hands.



⚠ CAUTION

Be careful not to pinch your fingers when the scanner cover closes.

e The installation will continue automatically. The installation screens appear one after another.

NOTE

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

f If the **Environmental Advice for Imaging Equipment** screen appears, click **Next**.

g When the **On-Line Registration** screen appears, follow the on-screen instructions. Click **Next**.

h If you do not want to set your machine as the default printer, clear the **Set as Default Printer** check box, and then click **Next**.

i When the **Setup is Complete** window appears, confirm the settings, and then click **Next**.

The tragedy of Romeo and Juliet

Queen Elizabeth was Queen of England and Ireland from the 17th of November 1558 until her death on the 24th of March, 1603. She was the fifth and last monarch of the Tudor dynasty. She was also known as The Virgin Queen or Good Queen Bess. She was the daughter of Henry VII and Anne Boleyn. Queen Elizabeth had been born a princess but because her mother, Anne Boleyn, had been executed three years after her birth on account of adultery and incest, she was put aside and declared illegitimate by her father for her brother Edward VI, the son of Henry VIII and Jane Seymour. Edward was only ten years old when he became king, so the kingdom was ruled by a Regency Council, and died five years later of tuberculosis. Queen Elizabeth was cut out of her brother's will, but the will was set aside and her half sister, Mary I, succeeded him briefly. Queen Mary I is also known as Bloody Mary during her reign due to the fact that she tried to change the country's entire religion to Catholic after her mother's religion, and ended up having to put a lot of people to death because they rose up against her. Queen Mary I is the first daughter of Henry VIII and of his first wife, the Princess of Spain, Catherine of Aragon. She was supported well by her uncle and relatives in Spain. After her death, and because Mary had not produced any heirs, the throne passed to Elizabeth. Elizabeth was left to clean up the mess that her sister had left her. She ruled for the good of the people, and a lot of people supported her, mostly because she didn't try to change the country's religion and that she set out to rule by good counsel: meaning, all of her decisions were passed through a group of advisors first, to see what they thought, before actually taking place. Elizabeth became famous for the fact that she was the Virgin Queen, the queen that never took a husband or had any children. One of her first moves as queen was to support the establishment of an English Protestant Church, of which she became Supreme Governor. This church later became the well known Church of England. Elizabeth never married or had any children and no one still knows why, though this was very much debated. It was rumored that she might have taken a lover that would not have been approved by her counsel. But either way, as Elizabeth grew older, this was what she became famous for. Her rule was famous and was called the Elizabethan era, famous above all for the new flair for English drama, led by playwrights such as William Shakespeare and Christopher Marlowe. All in all, in response to the question, Queen Elizabeth I was famous for establishing the Church of England, being one of the first monarchs to rule for the good of the people, rather than on her own whim and will, starting a new era (named after her in her honor) of English drama, and being the Virgin Queen, the queen that never married.

With the establishment of the Church of England, Elizabeth was viewed at home and abroad as a Protestant ruler. Although she did not face considerable problems earlier in her reign, when Mary Queen of Scots, a devout Catholic and claimant to the English throne, arrived in England in 1568 Catholic dissention quickly broke out. Countless plots to overthrow Elizabeth and seat Mary were schemed. In 1587 Elizabeth's counselors finally convinced her to execute Mary on charges that she had plotted to overtake the throne.

Survival Analysis: Introduction

Survival Analysis typically focuses on **time to event** data. In the most general sense, it consists of techniques for positive-valued random variables, such as

- time to death
- time to onset (or relapse) of a disease
- length of stay in a hospital
- duration of a strike
- money paid by health insurance
- viral load measurements
- time to finishing a doctoral dissertation!

Kinds of survival studies include:

- clinical trials
- prospective cohort studies
- retrospective cohort studies
- retrospective correlative studies

Typically, survival data are not fully observed, but rather are *censored*.

What we do

How does Barclaycard protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
How does Barclaycard collect my personal information?	We collect your personal information, for example, when you • open an account or deposit money • pay your bills or apply for a loan • use your credit or share card We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only • sharing for affiliates' everyday business purposes—information about your creditworthiness • affiliates from using your information to market to you • sharing for non-affiliates to market to you State laws and individual companies may give you additional rights to limit sharing. See below for more on your rights under state law.
What happens when I limit sharing for an account I hold jointly with someone else?	Your choices will apply to everyone on your account.

Definitions

Affiliates	Companies related by common ownership or control. They can be financial and non-financial companies. • *Our affiliates include companies with a Barclays name*
Non-affiliates	Companies not related by common ownership or control. They can be financial and non-financial companies. • *Barclaycard does not share with non-affiliates so they can market to you*
Joint marketing	A formal agreement between non-affiliated financial companies that together market financial products or services to you. • *Our joint marketing partners include companies such as insurance companies*

Other important information

For Vermont residents only: In accordance with Vermont law, Barclaycard will not share information we collect about Vermont residents with companies outside of Barclaycard except as permitted by law, such as with the consent of the customer, to service the customer's accounts or to other financial institutions with which we have joint marketing agreements. We will not share creditworthiness information about Vermont residents among Barclaycard's affiliates except with the authorization or consent of the Vermont resident.

For California residents only: In accordance with California law, we will not share information we collect about California residents with non-affiliated third parties except as permitted by law, such as with the consent of the customer, to service the customer's accounts, or to fulfill on rewards or benefits. We will also limit the sharing of information about you with our affiliates to the extent required by applicable California law.

For Nevada residents only: We are providing you this notice pursuant to state law. You may be placed on our internal Do Not Call List by following the directions set forth above. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number 702-486-3132; email: BCPINFO@ag.state.nv.us.

* **Please keep in mind that,** as permitted by applicable law, if you have a co-branded credit card account with us, we share information about you with our financial or retail partners in connection with maintaining and servicing your account, including for financial or retail partner to market to you. Federal law does not give you the right to limit this sharing.

* Pursuant to 42 C.F.R. § 435.910, the information requested by your state Medicaid agency is necessary for determining your eligibility for Medicaid and CHIP. Federal law requires you to provide the requested information in order to receive a determination of your eligibility. Your state Medicaid agency may also request your social security number (SSN) and the SSN of any other individual in your household who is applying for Medicaid or CHIP. Federal law requires you to provide the SSN of each individual in your household who is applying for Medicaid or CHIP and has been assigned an SSN, unless you are claiming an exception or have already provided the SSN to the agency. The agency will use SSNs to verify the identity of individuals, determine eligibility, and for other purposes as authorized by law. Failure to provide an SSN may result in denial or termination of Medicaid or CHIP coverage for you or your household members.

TEST
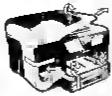
FAX
FROM
IDC

OFFICEJET PRO 8600

Start

www.hp.com/go/customercare

1



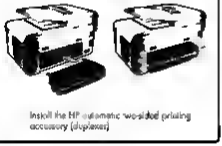
Remove tape and pack ing materials

Note: Some of the pictures in this poster might not match your printe

2

Press and l ft up the control panel to the desired he ght

3

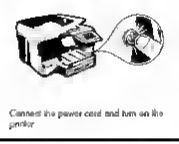


Install the HP automatic two-sided printing accessory (duplexer)

4

Install the optional tray 2

5



Connect the power cord and turn on the printer

6

Follow the instructions on the printer control pane, to l n sh setting up the printer, including

- Setting the language and location
- Loading paper
- Installing the ink cartridges
- Installing the pr nter software

Wh le the printer initializes, you migh hear some sounds.

Note: Ink from the cartridges is used in the printing process in a number of different ways, including in the initialization process, which prepares the printer and cartridges for printing, and in printhead servicing, which keeps print nozzles clean and ink flowing smoothly. In addition, some residual ink is left in the cartridge after it is used. For more information see

www.hp.com/go/inkusage

7

Register the printer...

By taking just a few quick minutes to register, you can enjoy faster service, more efficient support, and printer support alerts. If you did not register your printer while installing the software, you can reg ster later at

EGFR Mutation Analysis by PCR

Indication for Use: This *EGFR* mutation assay is a real-time PCR assay for detection of mutations in *EGFR* in tumor and cytology specimens. It is used as an aid in the identification of patients who may be candidates for treatment with [illegible] (EGFR tyrosine kinase inhibitors). Mutations in *EGFR* typically affect exons 18 through 21 and may result in [illegible] activation of downstream signaling pathways. Tumors with these mutations may be sensitive to EGFR inhibitors and should be tested for the presence of *EGFR* mutations before treatment with [illegible]. The presence of *EGFR* mutations has been associated with [illegible] to [illegible]. Mutations in *EGFR* may also be associated with resistance to [illegible]. Negative results do not preclude the possibility of [illegible] and should be confirmed by an independent test. Results should be evaluated in the context of other clinical and laboratory data available to the physician.

Methodology: This study utilizes [illegible] to detect [illegible] in the [illegible] gene. Results are reported as a [illegible] of the total [illegible].

Interpretation: The study did not detect [illegible] in the [illegible] gene. Therefore, the patient should be [illegible] based upon these results. A "Not Detected" result may not exclude the presence of an *EGFR* mutation below the detection limit of this assay.

Limitations: [illegible] of mutations [illegible] will be [illegible] in the [illegible] sample. Mutations [illegible] should be confirmed by [illegible] assay. Mutations not assessed with this test include [illegible] to [illegible] affecting the downstream pathway. Mutations [illegible] are associated with increased resistance to TKIs by mechanisms [illegible] *T790M* mutation in exon 20. *ALK* [illegible] are [illegible] associated with [illegible] to [illegible].

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Patient Name: npwfasdc

Patient DOB: 01-01-984

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Cicilo Glacy, PA

Patient DOB: 01 01 984

Patient Name: npwfasdc

Indications:

npwfasdc is a 50 year old Female with a history of nephrolithiasis currently with a 0.6cm Upper pole renal stone. None Options for management were discussed with the patient. The risks, benefits, and complications for extracorporeal lithotripsy were discussed with the patient.

Risks including but not limited to fractures, bleeding, hematoma, residual stone, recurrent stone, stent/ureteral need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both coronal and anteroposterior views. A total of 253 were delivered to the 0.6 Upper pole, renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.6 Upper pole, renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

How to Fix Vertical Stripes On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I d like to test it, just to make sure it works How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855 330 1239 (a toll free number in the United States) When it s finished transmitting point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes, your fax machine should

Hotmail

From Wikipedia, the free encyclopedia

Hotmail (official), **Microsoft Hotmail**, previously **Windows Live Hotmail** and **MSN Hotmail**) was a free web-based email service operated by Microsoft as part of Windows Live which was recently replaced by the newer Outlook.com service by Microsoft. Hotmail was one of the first web-based email services.[3] It was founded by Sabeer Bhatia and Jack Smith and launched in July 1996 as "HoTMail".[4] It was acquired by Microsoft in 1997 for an estimated $400 million, and shortly after it was rebranded as "MSN Hotmail". The current version was released in 2011.[5]

Hotmail features unlimited storage, Ajax, and integration with Microsoft's instant messaging (Windows Live Messenger), calendar (Hotmail Calendar), file hosting service (SkyDrive), and contacts platform.[6] As of 2012, Hotmail was the world's second largest web-based email service after Gmail with 360 million users.[1][7] It is available in 36 different languages.[8][9]

Hotmail is developed from Mountain View, California. When Hotmail Corporation was an independent company, it was headquartered in Sunnyvale.[10][11]

On 18 February 2013, Outlook.com (a newer webmail service by Microsoft)[12] deprecated Hotmail.[13] Existing Hotmail customers are scheduled to be upgraded to Outlook.com during 2013.[13]

Paula Deen NETWORK

'OL NO. 7 YAMS

Recipe by Paula Deen

MODERATE	130 MIN	4	$
Level	10 Prep + 120 Cook	Servings	/Serving

Ingredients

- 1 long strip orange peel
- 1/3 cup bourbon
- 1/4 teaspoon nutmeg, freshly grated
- 1 3 to 4 inch cinnamon stick
- 4 tablespoons butter
- 1 cup brown sugar
- 3 cups water
- 4 large sweet potatoes

Preparation

Wash and dry sweet potatoes and bake at 400° for one hour, until potatoes are soft to the touch. Remove from the oven and let cool slightly then remove skin from potatoes. Reduce oven temperature to 350°. While the potatoes are baking, combine remaining ingredients in a saucepan. Bring to a boil, then reduce the heat and simmer for 30 to 45 minutes until sauce is slightly thickened. Slice the potatoes 1/2-inch thick into a medium casserole dish. Pour syrup over them and return to the oven and bake for approximately 30 minutes. Tip: To make this dish faster, bake potatoes the night before, leave skin on and throw in the refrigerator until ready to use.

Thank you for purchasing an Eddie's Wheels for your pet!

After unpacking your cart, please take a few minutes to acquaint yourself with it and read the following

Understanding Your Cart

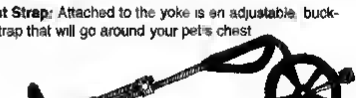
view from top

Wheels: Your cart may have had its wheels removed for shipping. If this is the case, you will need to install them following the directions in the Instructions and Adjustments section.

Saddle: Your pet will fit in the cart with its legs placed through the padded leg loops, above and slightly forward of the rear wheels.

Front Yoke: At the front end of the cart the curved, padded yoke will fit on top of your pet's shoulders, directly above the front legs. Open the yoke by pulling out the pullpins. Always close and lock the yoke when the cart is not in use.

Chest Strap: Attached to the yoke is an adjustable, buckled strap that will go around your pet's chest.



side view

Stirrups and other options: You may have ordered stirrups to keep your pet's rear feet from dragging on the ground. These may be padded straps hanging from bars mounted high on the rear frame (hanging stirrups) or padded, L-shaped bars attached lower down on the frame near the axles (rolling stirrups).

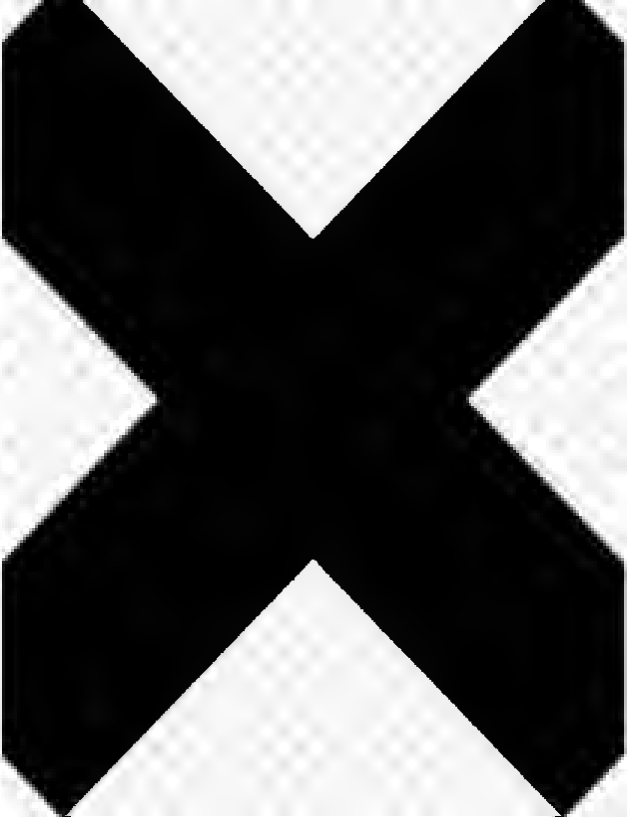
Refer to the section on Using and Adjusting Stirrups for more info.

hanging stirrups

rolling stirrups

If you have ordered other modifications such as counterbalance or neutral balance axles and/or front training wheels for your cart, we have enclosed seperate instruction sheets explaining their use and adjustment.

Take a look at our brochure to see examples of pets using and enjoying our custom made carts. Inspired ? Now you are ready to introduce the cart to your pet!



BBVA Compass

Top PopCard Tips!

1. Always [illegible] for multiple lead sources first
   1. Yahoo! portal leads will always have something, guess can't easily unwind
2. Entering a "reason did not rent" cancels a guest card
3. Always get as much information as possible from your prospects to fill in the proper tabs
4. Calls are recorded. Take what type of info!
5. People may call multiple times and already have a guest card created – that is canceled (see voicemail – no message) – make sure if you are talking to a prospect you check for matching guests, and the "reason did not rent" section before closing. Otherwise, if you make an appointment for someone that may reason "I will be saved and viewed out as a canceled guest and the appointment will not appear
6. Follow ups are then conducted based on the [illegible] date
7. Make sure that you are clearing off all ticker ups by the end of the day. You follow ups are represented as a red dotted along with [illegible] other useful data
8. Enter a "reason not rent" even if when a prospect passes / turns in application
9. If there's a line in the queue, there's work to do (very likely!) New leads cost money to generate, and the longer a prospect has to wait for a reply, the less likely they are to rent. Quick responses make more profitable leads!
10. Change the "assigned to" name if the lead changes agents
11. You can open more than one guest card at a time
12. If you are not finished working with a guest card, but want to close it temporarily, use the "save and return" button instead of "save and exit"
13. Make sure you are checking Quicklists from craigslist and [illegible] to get an email look similar to the [illegible] reply from an [illegible] auto-generated e-mail
14. You can send guest cards to other communities. The bottom bar features a send guest card button (hover save and exit). We all represent the St. Louis market, so if your property does not have what a prospect wants, do not hesitate to refer them to other locations
15. If a prospect "no shows" for an appointment that is already set, open the appointment and type in the notes they did not make the appointment. Make sure you follow up with them. A courtesy will not be listed. Hours are listed when you schedule, so we can't do that
16. If you missed a follow up because it was held too long on the queue, it will auto save and go onto the next follow up scheduled. These numbers are also reported, so be sure to follow up!
    Don't use #/## to show custom follow ups

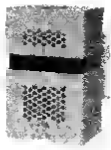
New Mexico

CVS Hardwired Series – Constant Voltage Transformers

Superior voltage regulation of ±1% sets the CVS series apart from other power conditioning technologies on the market. Extremely tight regulation is accomplished by Solid-State ferroresonant transformer technology. The CVS recreates a well regulated sinusoidal waveform that is well isolated from input disturbances including:

- Impulses
- Brownouts
- Severe waveform distortion
- Swells
- Sags



No other power conditioning technology provides as complete a solution against these power quality disturbances. The CVS series is ideal for applications where even a small change in voltage level can lead to unscheduled downtime, misoperation, incorrect data or scrapped production.

Features

- Superior voltage regulation of ±1%
- Surge protection tested in ANSI/IEEE C62.41 Class A & B Waveform
- Harmonic filtering
- Hardwired
- Acts as a Step-up/Step-down Transformer
- Galvanic isolation provides exceptional circuit protection.
- 25 year typical Mean Time Between Failure
- No maintenance required

Applications

- Industrial automation and control equipment PLCs
- Analytical laboratory and factory automating equipment
- Photo processing equipment
- Soundreinforcing systems
- Photocopy machines
- Broadcast equipment

Related Products

- On-line UPS (64K Industrial)
- Surge Protector
- Three Phase Power Conditioners
- Active Tracking® Filters

Selection Tables: Single Phase

Norton by Symantec

ENGLISH

Norton Utilities™

This Getting Started and previous instructions for installing Norton Utilities. For more complete instructions, see the user guide in PDF format located in the Manuals folder on the Norton Utilities CD. You must have Adobe Reader® installed on your computer to read the PDF.

Before you begin, you should close all open programs on your computer and ensure that you are connected to the Internet.

Use of Norton Utilities is subject to acceptance of the Norton License Agreement included with this product and available for review at

http://www.symantec.com

Installing Norton Utilities

If you have purchased a retail copy of Norton Utilities, you can install Norton Utilities from the CD that you purchased from the Retail store.

You must activate this product within 30 days of installation with the enclosed activation code, or the product stops working.

To install and activate Norton Utilities:

1. Insert the CD into the CD-ROM drive. The installation window opens automatically if **Autorun** is enabled on your system. If you have disabled **Autorun** on your computer, choose **Run** from the **Start** menu to open the **Run** dialog box. Type D:**Setup.exe** and click **OK**.
   If your CD drive is not "D", you need to substitute the letter with the correct letter.
2. In the **Welcome to the Norton Utilities Setup Wizard** window, read the license agreement and click **I agree**.
3. In the **Custom install options** window, click **Next**.
   Click **Browse** to change the location in which you want to install Norton Utilities.
4. After successful installation, Norton Utilities prompts you to begin an initial Scan. Do one of the following:
   - To start the scan, select **Yes** and then click **Finish**.
   - To cancel the scan, select **No**, and then click **Finish**.

How to test sending and receiving of a fax machine

Filed in Tech Tips on November 2009

Presumably you want to test your fax machine by sending a fax from it and receiving fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a fax to +1-415-777-1535 or +1-800-777-1800. When it's time to start transmitting, point your web browser to Fax.Tax — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see it in full screen.

To test the receive functionality of your fax machine, point your web browser to FaxZero.com and use it to send a fax to your fax machine. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and "receive" the test fax.

James Says,
November 4th, 2009 at 10:09 am

You can also use FaxZero.com to send a fax for free to the US or Canada. You can either upload a PDF, Word file or enter text to fax. Plus, it does NOT add Ads to your fax and is suitable for faxing formal documents.

Comments:

He heard quiet steps behind him. That didn't bode well. Who could be following him this late at night and in this dead of part of town? And at this particular moment, just after he pulled off the big time and was making silk with the proceeds so, somehow magically, refused had the street also, and was now watching him and waiting for a chance to grab the fruit of his labor? Or did the steps behind him mean that one of many law officers in town was out to him and just waiting to pounce and snap those cuffs on his wrists? He nervously looked all around. Suddenly he saw the alley. Like lightning he darted off to the left and disappeared between the two warehouses almost falling over the trash lying in the middle of the sidewalk. He tried to nervously tap his way along in the inky darkness and suddenly stiffened: it was a dead-end. he would have to go back the way he had come. The steps got louder and louder, he saw the black outline of a figure coming around the corner. Is this the end of the line? He thought pressing himself back against the wall trying to make himself invisible in the dark. was all that planning and energy wasted? He was dripping with sweat now, cold and wet he could smell it fraternizing with his clothes. Suddenly, he heard them with a barely audible squish as he kept sweating quietly to and fro in the night's breeze. Could this be the haven he'd prayed for? Slowly he slid toward the door pressing himself more and more into the wall, into the dark, away from his enemy. Would this door save this life?

*** ERROR TX REPORT ***
****

- mail

INCOMPLETE TRANSMISSION

The envelope also contains a form you can complete and return if you want to Direct Deposit your benefits to your checking account. Follow the instructions and return the form to the address shown.

DESTINATION ID

All individuals filing will receive a weekly claim card to file in a separate mailing. If you choose to [illegible] telephone, you do not need to mail in the card. If you do file by mail, the address to mail your card to will be with the card. The internet and telephone are the better methods of filing.

RESULT NO ERROR

TRY AGAIN IN BLACK INKS

If you work during any week you are filing for benefits, you will need to report your earnings when filing your claim for that week, and provide verification of your earnings before your benefits can be released. Verification can be a pay stub or an earnings statement completed by your employer.

* COLOR TRANSMISSION IMAGES ARE NOT PRINTED ON TRANSMISSION REPORT

You will also receive a Work Search Log to use to keep a record of your work search contacts for the first five weeks you file. In five weeks, we will send you a questionnaire that you need to fill out and return along with the work search log you've been using. You'll also receive a new work search log at that time to replace the one you're sending in. Use that new log for the next five week period. If you return to work before the five week period is over, be sure return your log, indicating that you have returned to work.

IF YOU DO NOT RECEIVE THESE MAILINGS WITHIN A WEEK, PLEASE CALL US AT 1 800-593-7660 AND SELECT OPTION 2 TO SPEAK WITH A CLAIMS REPRESENTATIVE

Dick Huber
1999 Horace Bushnell Award
Connecticut Arts Gala
June 5, 1999

(Arnold Greenberg, President, OR Doug Evans, Executive Director, The Bushnell, will announce the award Then young local violinist Monica Davis, accompanied by Frank Viola on the piano, are scheduled to perform Edouard Lalo's "Symphonie Espagnole" in honor of Aetna. Their presentation will be followed by an Aetna video and Aetna's acceptance of the award.)

- Monica and Frank, thank you for honoring Aetna with your performances tonight. You were outstanding.

- And thank you, Arnold [Doug], and members of The Bushnell Board of Trustees for this tribute. On behalf of Aetna, I am proud to accept a 1999 Horace Bushnell Award.

- I am also flattered to be receiving this honor alongside Max and Ruth Belding and [Jackie and] Dollie McLean, all long-standing and extremely generous supporters of the arts. Thank you for your special contributions to our community.

- The videotape we just saw gives you a flavor for Aetna's association with the arts.

Chapter Review

Heredity

Part A. Vocabulary Review

Directions. *Complete the following sentences using the terms listed below.*

alleles, dominant, genetic engineering, genetics, genotype, heredity, heterozygous, homozygous, hybrid, incomplete dominance, phenotype, polygenic inheritance, Punnett square, recessive, sex-linked gene

1. The allele for hemophilia is on the X chromosome and is a Sex-linked gene.
2. heredity is the passing of traits from one generation to another
3. The different forms a gene may have for a trait are called alleles
4. In incomplete dominance both alleles are expressed in offspring.
5. A plant that receives different genetic information from each parent is a hybrid
6. A dominant trait covers up other traits.
7. In a Punnett square, a small letter (t) stands for a recessive allele
8. A tool used to predict the possible offspring of a mating is called a Punnett Square
9. The genetic makeup of an organism is called its genotype
10. phenotype is the way an organism looks and behaves a result of its genotype
11. The study of how traits are inherited through the interactions of alleles is genetics
12. Through genetic engineering scientists are experimenting to change the arrangement of DNA in a gene.
13. An organism with two alleles that are exactly the same is homozygous
14. Polygenic inheritance occurs when a group of gene pairs acts together to produce a single trait.
15. An organism that has two different alleles for a trait is heterozygous

Request for Claim Payment Form

[redacted]

UPS Claim Number: 0041 1080

A claim number has been issued for the following merchandise. The next step in the claim process is to provide UPS with supporting documentation that shows losses, repair or replacement costs for the merchandise listed below. If the shipment has not been scanned, UPS may require you to provide a proof of tender

Fax or Mail Documents
You may provide this documentation to UPS through fax or mail. Please fax or mail this form as a cover page along with the required documents.

Provide UPS with documentation that shows the lesser of actual cost, cost to repair or replace the merchandise, such as:

Invoice / receipt
purchase order
Repair bill / estimate

Fax to :
1-800-877-9508

Mail to:
UPS
Claims Processing Center
P.O. BOX 1265
Newport News VA 23601-1265

Send Documents Electronically
Go online to http://www.ups.com/claims to send your supporting documents digitally directly to UPS.

Canon

Canon U.S.A., Inc. LIMITED WARRANTY — (USA Only)

The limited warranty set forth below is given by Canon U.S.A., Inc. ("Canon USA") with respect to the new or refurbished Canon-brand product ("Product") packaged with this limited warranty when purchased and used in the United States only.

The Product is warranted against defects in normal use and workmanship under normal use and service (a) for a period of one (1) year from the date of original purchase when delivered to you, a new unopened factory original warranty seal(s) for ninety (90) days from the date of purchase warranty for refurbished Products. Product returned to a Canon USA repair facility or a Canon USA Authorized Service Facility ("ASF") and proven to be defective upon such inspection will be repaired utilizing new, remanufactured or refurbished (or reprinted parts (b) exchanged for new or (c) exchanged for a refurbished Product, or determined by the Canon USA repair facility or the ASF consistent, repair or replacement shall not extend the original warranty period of the Product. A dated proof of purchase is required at the time of warranty repair. Canon USA may refuse warranty service without this requirement. This warranty does not cover any accessories, or any repeat strike, such or paper or ink conditions as to which there shall be no warranty or replacement.

This limited warranty shall only apply if the Product is used in conjunction with compatible consumables, peripheral equipment and materials. Canon USA shall have no responsibility for such items except for compatible Canon brand peripheral equipment covered by a separate warranty ("Separate Warranty"). Repairs of such Canon brand peripheral equipment shall be governed by the terms of the Separate Warranty. Non-Canon brand equipment and software that may be distributed with the Product are sold "as is" and neither warranty shall be offered by Canon USA, including any implied warranty regarding merchantability or fitness for a particular purpose, and all such warranties are disclaimed. This sole warranty, if any, with respect to such non-Canon brand items is given by the manufacturer or producer thereof.

This limited warranty covers all defects encountered in normal use of the Product and does not apply in the following events:

(a) Loss of or damage to the Product due to fitness neglect, misuse/use, improper packaged by you, alteration, accident, electrical current fluctuations, unauthorized use, failure to follow operating or maintenance instructions, in the environmental conditions conditions in Canon USA's user's manual or other documentation, or service conditions by persons other than a Canon USA repair facility or ASF, without limiting the foregoing, treating the Product, exterior as, and warranty will be conditioned have resulted from misuse, misuse failure to operate the Product by set forth in the user's manual or other documentation for the covered

(b) Use of parts, media, software or supplies (other than those sold by Canon USA), including non-Canon ink cartridges or refilled ink cartridges, that cause damage to the Product or cause abnormally frequent service calls or service problems.

(c) If the product has had its serial number or coding defaced, altered or removed

ANY SYSTEM SOFTWARE (WHETHER FACTORY LOADED OR THE PRODUCT OR DOWNLOAD OR THE SOFTWARE DESCRIBED ON CD-ROMS INCLUDED WITH, OR AUTHORIZATION) THE PRODUCT, AND ANY OTHER SOFTWARE, INTERNET OR WITH OR FOR THIS PRODUCT IS SOLD "AS IS" AND WITHOUT WARRANTY BY CANON USA. THE SOLE WARRANTY WITH RESPECT TO SUCH SOFTWARE IS SPECIFIC SUCH SOFTWARE IS CONTAINED IN THE SOFTWARE MANUFACTURER'S LICENSE AGREEMENT DISTRIBUTED THEREWITH, INCLUDING ANY LIMITATIONS AND DISCLAIMERS THEREIN. PLEASE CONTACT CANON USA IMMEDIATELY IF YOU HAVE NOT RECEIVED A COPY OF THE SOFTWARE MANUFACTURER'S LICENSE AGREEMENT.

NO IMPLIED WARRANTY INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, APPLIES TO THE PRODUCT AFTER THE APPLICABLE PERIOD OF THE EXPRESS LIMITED WARRANTY STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY, EXCEPT AS MENTIONED ABOVE, GIVEN BY ANY PERSON OR ENTITY WITH RESPECT TO THE PRODUCT SHALL BIND CANON USA. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. CANON USA SHALL NOT BE LIABLE FOR LOSS OF REVENUES OR PROFITS, INCONVENIENCE, EXPENSE FOR SUBSTITUTE EQUIPMENT OR SERVICE, STORAGE CHARGES, LOSS OR CORRUPTION OF DATA, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE, OR INABILITY TO USE THE PRODUCT REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF CANON USA OR ITS ASF HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ANY SUMS RECOVERY OF ANY KIND AGAINST CANON USA OR ITS ASF OR CANON IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, YOU ASSUME ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO YOU AND YOUR PROPERTY AND TO OTHERS AND YOUR PROPERTY ARISING OUT OF THE FOREGOING, USE, MISUSE, OR INABILITY TO USE THE PRODUCT SOLD BY CANON USA NOT CAUSED SOLELY AND DIRECTLY BY THE NEGLIGENCE OF CANON USA. OR ITS ASF. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THE PRODUCT OR THE ORIGINAL END USER IT WAS PURCHASED AS A GIFT AND STATES YOUR EXCLUSIVE REMEDIES.

EARTH SCIENCE NEED TO KNOW FACTS .

- Sound is a form of ~~energy~~ that decays by
- As pressure increases, density increases & As temperature increases, density decreases (warm air rises)
- Water expands when it freezes
- A sphere is the best model of Earth's shape (hard topped round)
- Distance of Planets – varies due to tilt
- Longitude from poles to poles
- Civil twilight lasts about 30 minutes, ends when sun is 6° below horizon
- Sedimentary rocks: Horizontal layers, contain fossils
- Igneous rocks: Extrusive-cools fast-small crystals (fine) no crystals (glassy)
  Intrusive-cools slowly-large crystals (coarse) (coarse)
- Metamorphic rocks: banding-distorted structure more dense
- Mineral properties: depends on internal arrangement of atoms
- Porosity (amount of holes) – size does not matter, (when sorted)
- Permeability (holes connected) – the larger the pore size the more water goes through
- Gravity is second all erosion (wind, rain, ice, glaciers, ocean waves)
- Capillary (moves wet upward) – increases as particle size decreases
- Stream velocity depends on slope and cross sectional area
- Stream capacity depends on slope and cross sectional area (amount of water in stream)
- Velocity is fastest on middle of meander where erosion occurs, this area it is deepest.
- Heavy-dense mineral particles settle out first in water
- Graded bedding: Coarse at bottom, fine at top
- Horizontal sorting: large particles settle out first (sorted by size) (when stream velocity decreases)
- Glacial sediments: unsorted, no stratification, U shaped valley (abrasion)

Seasons (tilt of Earth) N Pole toward Sun = summer

- Equator – no seasons – always has 12 hours of daylight
- Hottest month – July / Coldest month – January / February
- Highest time of day – 2 PM / Lowest time of day – around sunrise

Day	Date	Vertical rays		Sunrise	Sunset	Day length
Summer solstice	June 21	Tropic of Cancer	23 ½° N	N of E	N of W	Longest
Autumnal equinox	September 23	Equator	0	East	West	12 hours
Winter solstice	December 21	Tropic of Capricorn	23 ½° S	S of E	S of W	Shortest
Spring equinox	March 21	Equator	0	East	West	12 hours

Weather

- Clouds form when: Warm, moist air rises, expands and cools to the dew point. Condensation occurs.
- Wind: horizontal movement of air caused by unequal heating of Earth's surface

Since the AR-C150 Digital Color IMAGER provides excellent image quality and can reproduce almost any document with realistic clarity, some end-users may try to copy official documents or currency. In compliance to federal guidelines, the AR C150 has an anti-counterfeiting system installed. This system is linked with the serial number so the counterfeit image can be tracked to the machine of origin.
Remember to record all AR-C150 sales by serial number in compliance with Treasury Department guidelines.

NEW VERY

Zen Thinking

- The journey of a thousand miles begins with a broken fan belt and a leaky tire.

- Never test the depth of the water with both feet.

- Give a man a fish and he will eat for a day. Teach him how to fish, and he will sit in a boat and drink beer every weekend.

- Some days you're the dog ... and some days you're the hydrant.

- Don't worry ... it only seem kinky the first time.

to pass through the liver before being sent to the heart. Choice D is wrong, because obstruction of the pulmonary artery would result in a DECREASE, not an increase, in blood supply delivered to the tissue/lungs. Again, the correct answer is choice B.

8. **The correct answer is choice B**. This is really a simple knowledge question—either you knew which of the pairs of tissue are derived from the same primary germ layer or you didn't. Let's go through each of the choices. Choice A is incorrect because the brain, along with the rest of the nervous system, is an ectodermal derivative, while the skeleton is a mesodermal derivative. Choice B is correct since both muscle and the kidneys are derived from mesoderm. Choice C is incorrect because the kidneys are mesodermal in origin while the brain, as noted, is an ectodermal derivative. Choice D is incorrect because the epithelial linings of both the digestive and respiratory tracts are endodermal in origin, while, as just noted, the kidneys arise from mesoderm. It is important that you know which tissues derive from which embryonic germ layers, as this has always been a favorite MCAT theorem question topic. A more detailed discussion of this topic can be found in the Embryology chapter of your Biology Review Notes. Again, the correct answer is choice B.

9. **The correct answer is choice A** in terms of vertebrate development. Induction is defined as the process by which a particular group of cells causes the differentiation of another group of cells. Choice A is an example of inductive: the group of cells that form the notochord induces the formation of the neural tube. Other examples of induction in vertebrate development include the formation of the eye, where the optic vesicles induce the ectoderm to thicken and form the lens placode, which in turn induces the optic vesicle to form the optic cup, which in turn induces the lens placode to form the cornea and the lungs. Let's look at the other answer choices. In choice B, while it IS true that a neuron synapses with another neuron via a neurotransmitter, the chemical messenger of the nervous system—this is NOT an example of induction. Thus, choice B can be eliminated. In choice C, while the neural tube DOES develop into the nervous system, it is not induced to do so by another group of cells or tissue—at least not as far as we know. Therefore, choice C is also wrong. Finally choice D is also a true statement—TSH or thyroxin stimulating hormone DOES stimulate the secretion of thyroxine by its target (implies. However—this is not an example of induction. Remember just because an answer choice is a true statement does not mean it is the correct answer. It is only correct if it answers the question that was asked. Again, the correct answer is choice A.

10. **The correct answer is choice C**. This question is simply asking you where growth occurs as long bone. The answer is the epiphyseal plates. The epiphyseal plates are regions of cartilaginous cells separating the shaft of the long bone, called the diaphysis, from its two dilated ends, called the epiphyses. The epiphyseal plates are located at either end of long bone, which are referred to as the proximal and distal ends. Since growth occurs only at the epiphyseal plates, the strontium would be incorporated near the plates. Therefore, choice C must be the correct answer. Choices B and D are incorrect because they incorrectly identify the location of long bone growth. Choice A is incorrect because the question is only dealing with long bone growth—joints are what link two bones together—they are not part of the long bones themselves, so you're not going to find strontium there. Again, choice C is correct.

11. **The correct answer is choice D**. An individual develops a gastric ulcer either when her gastric mucosa overproduces hydrochloric acid (HCl) or when her mucosal defenses are inadequate to protect the stomach mucosa from the normal concentration of HCl in the stomach. The pH in the stomach is normally very low—around 2—due to this secretion of HCl. This acidic environment is needed by the stomach enzyme pepsin, which works optimally at a pH of 2. One way to treat a peptic ulcer is to take antacids, which neutralize the HCl in the stomach and thereby raise the gastric pH. By raising pH, peptic hormone nonfunctional. Therefore, pepsin activity would be most affected by an antacid overdose, and so choice D is the correct answer. By contrast, the contents of the small intestine are relatively alkaline due to the secretion of bicarbonate, and the enzymes secreted into it function best at this higher pH. Trypsin, pancreatopeptidase and lipase are all products of the exocrine pancreas secreted into the small intestine and function best in the alkaline environment there. Therefore, they would not be affected by an antacid overdose, and so choices A, B and C are incorrect. Trypsin and proenzymexpepsidase are both protein digesting enzymes, while lipase is involved in fat digestion. Again, choice D is the correct answer.

12. **The correct answer is choice C**. Lipases are enzymes involved in lipid digestion. Lipids are a category of nonpolar organic substances that include fats, oils, waxes, and steroids. Therefore, pancreatic lipase is an enzyme involved in the digestion of fat. If you didn't know this outright, you might have been able to deduce it from prefix "lip" shared by lipase and lipid and lipoprotein. Thus, choice C is the correct answer. As for the other answers, starch (choice A) is digested by amylase, which is secreted by both the salivary glands and the pancreas. Protein, choice B, is digested by proteases such as pepsin, trypsin, and chymotrypsin, just to name a few. Choice D, cellulose, is actually an indigestible molecule for most mammals. Cellulose is the plant equivalent of starch, and vertebrates do not have an enzyme capable of digesting it. Mammals that consume a lot of cellulose-rich plant material, such as elephants, horses, and cows, have bacterial symbiotes in their guts that digest cellulose for them. So, choices A, B, and D are all incorrect, and choice C is the correct answer.

13. **The correct answer is choice A**. When the partial pressure of the respiratory gases are abnormally high or low chemoreceptors located in the medulla oblongata, on the carotid arteries, and on the aorta, detect and signal the

1/2 onion chop
2 garlic cloves (minced)
1 2 lbs ground beef
2 cans kidney beans (red) rinsed and drained
1x 15oz crushed/diced tomatoes
1x 29oz can of tomato sauce
1 cup of water (as needed)
1 chicken bouleom cube
1 beef bouleom cube
3 tbsp chili powder
1 tsp salt
3 tsp cumin
1 tsp oregano
1 can of beer (optional)

Sautee onion, garlic, and beef until beaf is brown.
Drain excess grease.
Add all ingredients
Bring to boil, then simmer for 1 hour
Before serving, add shredded cheese (optional)

Test Brooktrout Card

Thank you for choosing a Brother product.

Register On-Line. This is the fastest, most efficient way to register your new product.

www.registermybrother.com

Register by Fax. Please take the time to verify your Owner's Manual for proper basic station setup and operating procedures. Be sure to setup your Station ID. Fill out the Test Sheet on the reverse side of this page and fax it to us at 1-877 269 9675 as your first transmission. This will register your product and verify that your new Brother product is properly installed. When we receive this document, we will send a confirmation page to your machine. If you do not receive a response within 24 hours please confirm that your Station ID is properly set up (including your area code) and try faxing again. If you still do not receive a response, contact Fax/MFC customer service at 1-877-BROTHER (1-877-276-8437).

Register by Mail You may also register by mail by completing the back of this form and mailing it to:

Brother International Corporation
Warranty Claim Department
PO BOX 341332
Bartlett TN 38184-9804

Why Register?

Purchase Confirmation: Your product will be officially registered with Brother International Corporation.

Proof of Ownership: In case of an insurance loss due to such causes as fire, flood, theft, etc.

Information Response: If you choose, Brother will notify you of new updates or enhancements and special offers.

For More Information: Should you need additional information regarding your Brother product or if you wish to locate your nearest Brother Authorized Service Center, visit our website at: www.brother-usa.com

For a complete list of supplies and accessories available for your product, visit us online at www.brothermall.com or call us toll-free at 1-877-552-8255.

About Your Warranty: The warranty of your Brother product is a Limited Warranty. Please review your warranty statement for complete details.

Extended Manufacturer's warranty Agreement. To further protect your Brother product after the initial warranty period expires, Brother International Corporation offers a Extended Manufacturer's warranty Agreement. Please visit our website at www.brother-usa.com/emf for extended warranty purchasing information.

Food & Recipes

Velveeta Taco Mac & Cheese
Quick and Easy Comfort Food

From the Kitchen of Velveeta

Servings: 6
Difficulty: Easy
Cook Time: 1 30 min
Velveeta the family friendly cheese that comes in a familiar yellow box can be used for a surprising variety of recipes from macaroni and cheese, to salsa dip

In celebration of Velveeta's 75th anniversary America's favorite cheesy recipes were prepared on Good Morning America

Ingredients
1 lb ground beef
1/3 cup Taco Bell Home Originals Thick 'N Chunky Salsa
2 cups elbow macaroni (8 oz) uncooked
1/2 lb Velveeta Pasteurized Prepared Cheese Product (8 oz) cut up

Directions
Brown meat in large skillet drain Stir in 2 and 3/4 cups water salsa and chili powder Bring to boil; stir in macaroni Cover simmer 10 minutes or until water is almost absorbed Add Velveeta; stir until melted
Top with crushed tortilla chips, chopped green onions and tomatoes if desired

Great Variation Substitute Taco Bell Home Originals Taco Seasoning Mix for the chili powder

Great Substitute: Prepare as directed using Velveeta Mexican Pasteurized Prepared Cheese Product with Jalapeño Peppers

FAX US YOUR UNWANTED FAXES

In 2006, the Federal Communication Commission (FCC) gave businesses the right to "opt-out" from receiving faxes in the future. You may use this opt-out notice on the faxes you receive. Many companies do not take the time to remove faxes or opt-out improperly which results in continued unwanted faxes.

The EnviroFax Commission is a nonprofit corporation. Its assistance is FREE. EnviroFax does not sell goods or services and will not contact you.

PLEASE FAX YOUR UNWANTED FAXES TO THE ENVIROFAX COMMISSION. WE WILL CONTACT THE SENDER AND HAVE YOUR FAX NUMBER PERMANENTLY REMOVED FROM THEIR FAX LIST. THE SENDER HAS THIRTY (30) DAYS TO COMPLY

Please make sure your fax number is on the fax you send to us. We need this information when we opt-out for you.

Fax your unwanted faxes to EnviroFax.

Fax Answers

answers to your questions about faxing

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

This entry is filed under Fax Machines.

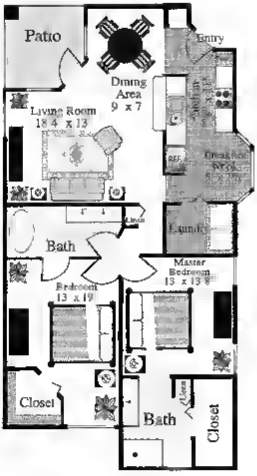
TEST 1

FLOOR PLAN

SABAL POINT



The Majestic

Two [illegible]/Two[illegible]th
1218 square [illegible] Living space

www.sabalpointcondos.com

This book captures Wilson and his times but it is a pretty dry read
James Madison - Ralph Ketchum just too dry - SMR
Calvin Coolidge - Robert Sobel - this never really grabbed me but it is written in an engaging style
William Henry Harrison - Freeman Cleeves - This biography is more than 50 years old The narrative is engaging and Harrison had an interesting life, BUT, Harrison gets pretty much a free pass for his relationship with the many tribes who he evicted from the Northwest Territories. See the recent biography of William Clark for an more revealing telling of this aspect of Harrison's life
VYING FOR THE WORST
Zachary Taylor - Jack Bauer - Taylor was an egotistical, quarrelsome, and paranoid guy who became president after winning several important battles during the Mexican War Bauer does a workmanlike job detailing Taylor's life but he avoids a lot of the controversy by not making some pretty basic judgments into Taylor s character
Richard Nixon - Tom Wicker - An odd book Wicker writes with great insight into Nixon, but he seems to get tired of writing the book Watergate is almost completely left out as is much of the last years of Nixon's presidency SMR
James Polk Eugene McCormac - This two volume set was one of the most disappointing biographies I read, but there is little available as far as a complete biography of Polk.. A political biography, that completely ignores Polk's personal life (slave-owner, ambitious wife, father). SMR
John Tyler - Oliver Chitwood - A poorly organized and overly apologetic biography of one of the leading candidates for worst president Written in the thirties, this book is stylistically dated SMR.
William Taft - Judith Icke Anderson The author is a disciple of the Fawn Brodie - psychoanalytic school of biography Taft is actually a pretty easy guy to figure out, and he was quite open and honest about his feelings about his life and career He didn't need this sort of biography
Benjamin Harrison - Harry Sievers - This is dreck! Three volumes of hero worship Harrison had an interesting life and was an ineffective president, but this set does little to engage the reader SMR
William McKinley - Kevin Phillips - This is more of a long essay than a biography Way too many aspects of his life are brushed over I was left with far too many questions about McKinley, and definitely feel a need to find another McKinley biography SMR

Common terms in your Explanation of Benefits

Depending on what kind of plan you have and medical services you received, you may see some or all of these terms in your Explanation of Benefits (EOB) at one time or another. Here is some information about what those terms mean.

Daily Amount
A column heading found in the Medicare Part A and Inpatient Stays section of your EOB.

It is the amount Medicare requires you to pay for each day of your inpatient stay, and is also called the Medicare Part A coinsurance.

Medicare Approved Amount
The amount allowed by Medicare for a health care service. If your provider accepts Medicare assignment, your provider agrees to charge you no more than this amount. If your provider does not accept Medicare assignment, you may be responsible for charges above the Medicare Approved Amount up to the Part B Excess Charge amount.

Medicare Benefit Period
A period of time, determined by Medicare, that starts on the day you enter a hospital for inpatient care and ends when you have been out of the hospital or skilled nursing facility for 60 days in a row.

Medicare Part A Deductible
The amount you must pay the first time you are admitted to a hospital in each Medicare benefit period. This amount is found in the Medicare Part A and Inpatient Stays section of your EOB.

Medicare Part B Coinsurance
The amount you are responsible to pay for each covered service you receive under Medicare Part B after your Part B deductible has been met.

Medicare Part B Deductible
The amount you must pay each calendar year toward eligible expenses before Medicare starts paying Part B benefits. The amount applied to the Part B deductible is found in the Medicare Part B Services section of your EOB.

Part B Excess Charge
An amount above the Medicare Approved Amount that your health care provider may legally charge you if your provider does not accept Medicare assignment. If your plan does not cover the Part B Excess charge, you may be billed for these charges. Some federal and state laws limit the amount your health care provider may charge above the Medicare Approved Amount for certain services.

Plan Cost-Share
Any amount applied to your plan deductible or copay, if applicable to your plan. If you have Medicare Supplement plan K or L, this amount plus the Medicare Part B deductible is applied to your out-of-pocket limit. You may be billed for these amounts by your health care provider in addition to any other balance due. This term is found in the Medicare Part B Services section of your EOB.

Medicare Supplement Plan N Copayment
A fixed amount (for example, $20) you pay for covered health care, usually when you receive the service. If you have Plan N, this amount is found in the Medicare Part B Services section of your EOB.

Your Plan Deductible
The amount you are required to pay toward certain health care expenses covered by your plan before your plan pays benefits. This amount is found in the Medical Services and Prescription Drugs sections of your EOB.

These plans carry the AARP name and UnitedHealthcare pays a royalty fee to AARP for use of the AARP intellectual property. Amounts and are used for the general purpose of AARP and its members. Neither AARP nor its affiliates is the insurer. Coverage insured by UnitedHealthcare Insurance Company (for New York residents, UnitedHealthcare Insurance Company of New York).

Feedback with Die Makers

- This isn't easy!
  - The die maker needs dialogue and discussion to make a better die
  - Open and honest communication!
  - They use this feedback to build a set of parameters for YOUR operation
  - Over time you should see your first run percentages go up
  - Most extruders today that work in this way see first runs over 90% some see first runs over 95%

End of presentation – Questions and feedback

Infinite Series

Objective:

1. Study the tests for convergence of an infinite series
2. Study power series and its conditions for convergence
3. Review/study convergence of Taylor and Maclaurin series

Outcomes:

1. Understand defination of infinite series.
2. Understand the concept of the sum of a series
3. Be able to identify and determine convergence or divergence of geometric, harmonic and telescoping series
4. Understand the integral test, when and how to use it, and how to interpret its results.
5. Be able to identify p-series, and determine its convergence or divergence.
6. Understand the comparison test, when and how to use it, and how to interpret its results.
7. Understand the limit comparison test, when and how to use it, and how to interpret its results
8. Understand and apply the alternating series test. Know the conditions necessary to use it.
9. Understand the idea of absolute convergence
10. Understand and apply the root test and the ratio test, when to use them, and how to interpret results.
11. Understand the general form of a power series
12. Understand the conditions for convergence of a power series
13. Show convergence of various power series.
14. Define the Taylor polynomial
15. Describe Taylor polynomials and Maclaurin polynomials as infinite series
16. Understand how to approximate transcendental functions using Taylor series
17. Define and understand nth remainder of a function f.
18. Determine convergence of Taylor series and Maclaurin series using the nth remainder
19. Be able to build a Taylor series.

Patient Name: npwfasdc

Patient DOB: 01-01-984

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Cicilo Glacy, PA

Patient DOB: 01 01 984

Patient Name: npwfasdc

Indications:

npwfasdc is a 50 year old Female with a history of nephrolithiasis currently with a 0.6cm Upper pole renal stone. None Options for management were discussed with the patient. The risks, benefits, and complications for extracorporeal lithotripsy were discussed with the patient.

Risks including but not limited to fractures, bleeding, hematoma, residual stone, recurrent stone, stent/ureteral need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both coronal and anteroposterior views. A total of 253 were delivered to the 0.6 Upper pole, renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.6 Upper pole, renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.
